# Budget Summary

---

# Overview

The *Comparison Report* details the revised FY 2010 budget and the FY 2011 budget approved by the 2010 Legislature. The format of the report compares the budget recommended by Governor Parkinson to the legislative changes made through the appropriations process. The schedules at the end of the document provide detail by agency for the approved budgets for both FY 2010 and FY 2011.

The table on the previous page lists summary numbers for the State General Fund, and all funding sources. The table above and the pie charts on the next page summarize the various categories of expenditures from the State General Fund.

## State General Fund

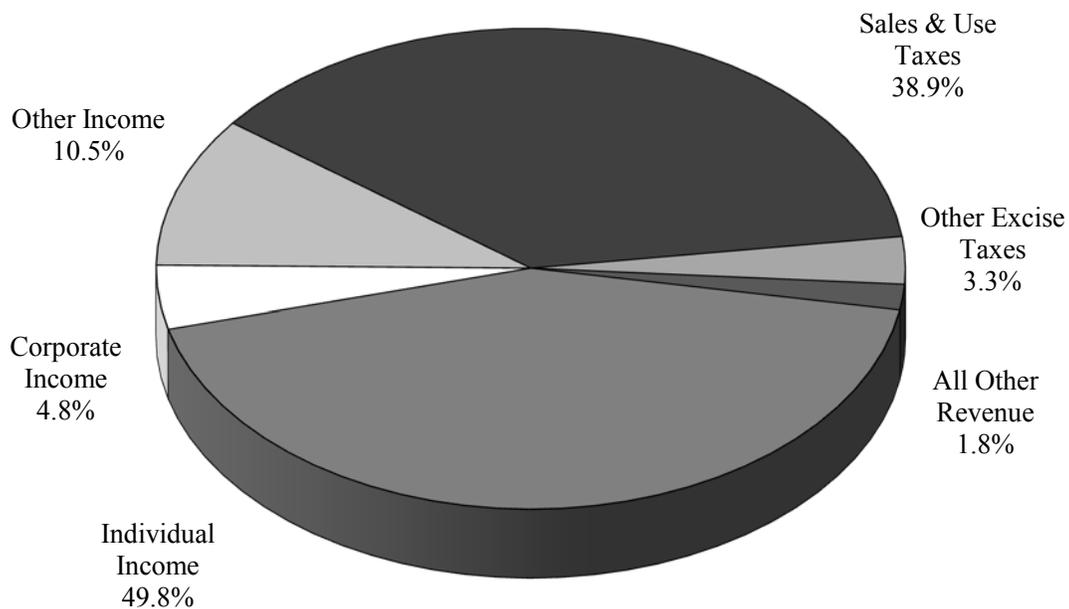

**FY 2010.** The Legislature increased spending by \$1.1 million from the State General Fund to the Governor's FY 2010 revised budget recommendation. Most of the additional funding went to the Legislative Coordinating Council as a reserve account to ensure sufficient funding was in place for the 2010 Legislative Session and for the Regents Institutions to avoid reducing their

State General Fund appropriations relative to the 2006 level to keep the state's maintenance of effort in place for the Recovery Act State Fiscal Stabilization Fund grant.

<b>Budget Totals</b>		
	<u>Governor's Rec.</u>	<u>Approved</u>
FY 2010:		
SGF	\$ 5,406,934,232	\$ 5,408,055,522
All Funds	14,395,822,225	14,404,297,381
FY 2011:		
SGF	\$ 5,832,070,128	\$ 5,626,603,361
All Funds	13,726,617,644	13,714,057,569

**FY 2011.** The Governor's FY 2011 budget was built using the Consensus Revenue Estimate of November 2009. The revenue estimate was revised downward in April 2010 to reflect lower economic growth, and then adjusted a gain in June 2009 to account for enacted legislation which included an increase in the state sales tax rate. In response to lower expected revenues, the Governor announced a budget reduction

<b>Total</b>	<b>\$1,404.6</b>	<b>\$3,163.2</b>	<b>\$1,024.4</b>	<b>\$34.4</b>	<b>\$5,626.6</b>

*Totals may not add because of rounding.*

plan in March 2010, and budget amendments in April, to which the Legislature responded.

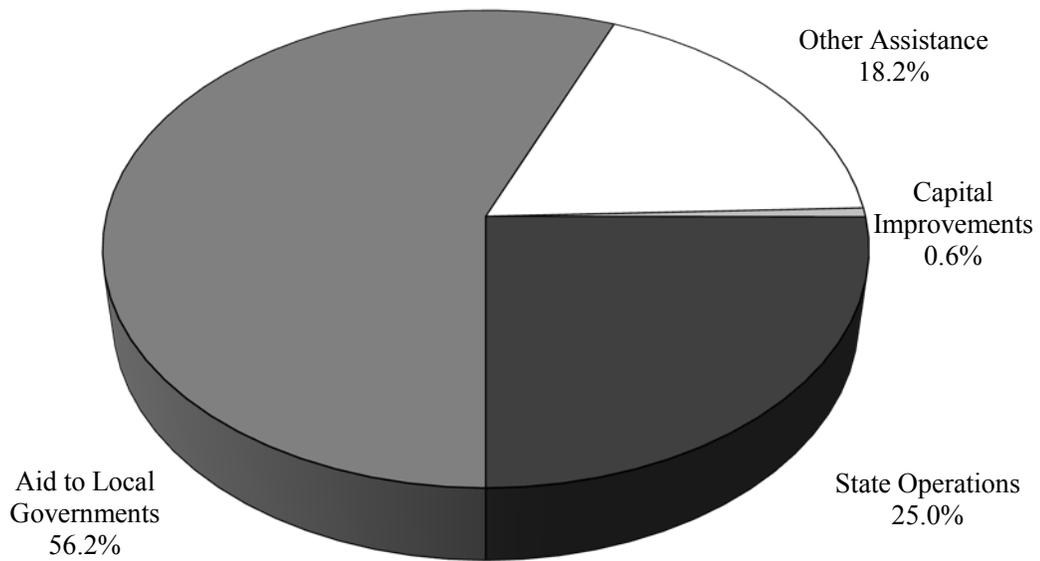

Other than the supplemental language related to FY 2010, no budget was enacted during the regular legislative session. During the omnibus session, the Legislature reduced the Governor's proposed FY 2011 expenditures by \$ 216.9 million. Much of that reduction was to account for an anticipated extension of higher federal match rates on Medicaid.

**FY 2012 Outlook.** The table on page 4 provides an outlook for FY 2012, if current policies would be carried forward. For FY 2012, tax revenue is presumed to grow by 6.0 percent.

The table assumes flat funding for school finance, and estimates human service caseload costs to increase by \$50.0 million. Where budgets were reduced in FY 2009, FY 2010 and FY 2011 for available federal Recovery Act monies, State General Fund levels are restored in FY 2012 when those monies will presumably not be available.

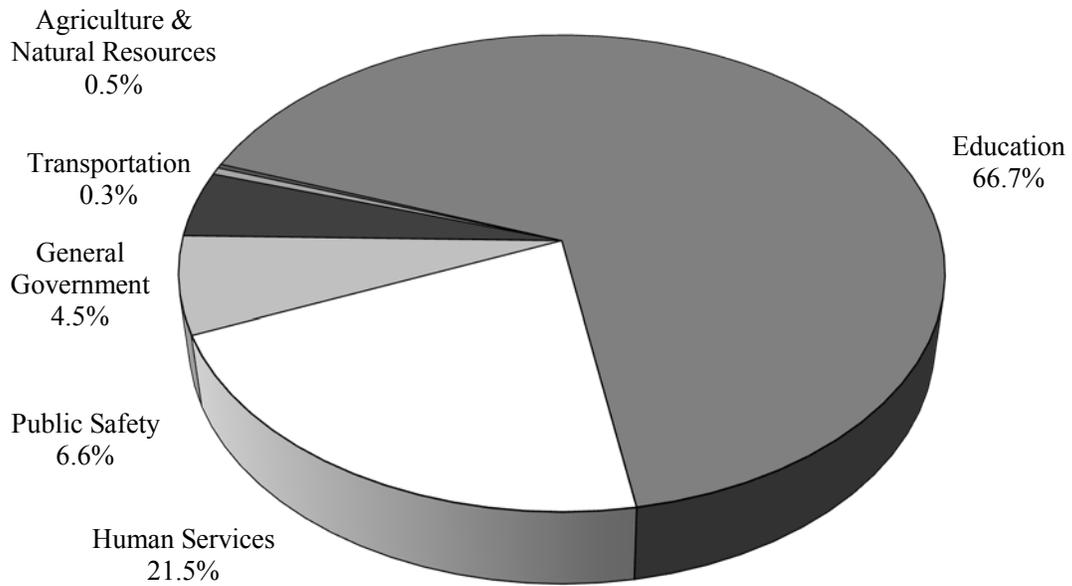

With these assumptions, the projected ending balance would be \$ 8.2 million. If actual FY 2011 and FY 2012 receipts are greater than estimated, the expected FY 2012 ending balance will be greater as well. However, even with an improving economic climate, the state clearly faces another challenging budget cycle.

### All Funding Sources

The revised FY 2010 budget and new FY 2011 budget from all funding sources passed by the Legislature totals nearly the same amount as the budget recommended by the Governor. Although the State General Fund was again cut substantially in FY 2010 and FY 2011, a portion of those cuts was mitigated by using federal funds received through the American Recovery and Reinvestment Act (ARRA). For 11 quarters, ARRA funds will pay for a greater

percentage of Medicaid costs. In addition, ARRA state fiscal stabilization funds are used to support aid to schools, higher education, and the Department of Corrections. These funds will largely not be available, however, in FY 2012 and the state will have to incorporate these items back in the state budget or make additional cuts.

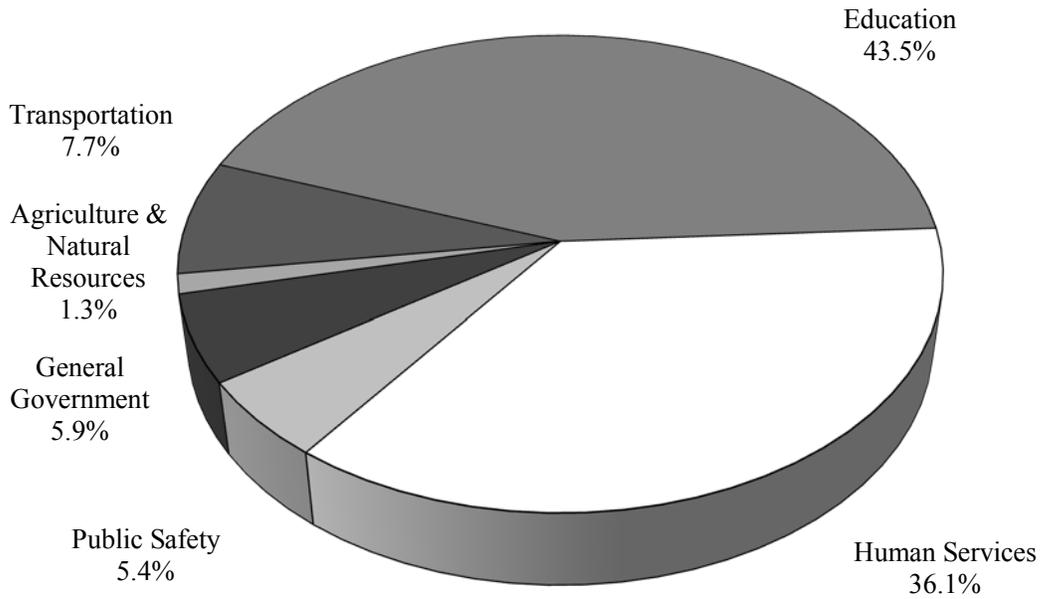

The pie charts on the bottom of this page and the top of page 6 show how the approved budget from all funding sources is divided among the six functions of government and the major categories of expenditure.

# State General Fund Balances

## Ending Balance Requirements

KSA 75-6702 was enacted in 1990 that established minimum ending balances to ensure financial solvency and fiscal responsibility. The legislation requires an ending balance of at least 7.5 percent of total expenditures and demand transfers and requires that the Governor's recommended budget as well as the budget approved by the Legislature for the coming year adhere to this balance. FY 2011 is the ninth consecutive year the Legislature has chosen to suspend the ending balance requirement.

Downward revisions in the spring to the FY 2010 revenue estimate result in a projected negative balance for the State General Fund. Rather than make further reductions to FY 2010, \$140 million of budgeted expenditures in the Department of Education will be carried over to FY 2011, depending on June revenue collections and agency expenditures. Because this carry-over was anticipated within the budget adopted by the Legislature for FY 2011, no further action is required, if revenues meet the estimates.

While Governor Parkinson's proposed budget for FY 2011 provided for a zero balance; the final budget approved by the Legislature ended up at \$9.8 million. A combination of adjustments to both revenues and expenditures account for the difference. The Legislature enacted a variety of revenue measures, and reduced expenditures.

## Cashflow

The budget is based on an estimate of annual receipts and total expenditures approved by the Legislature for a fiscal year. However, the pattern of receipts to the State General Fund within the fiscal year does not match the pattern of agency expenditures. The uneven nature of revenue and expenditure patterns requires that actions be taken to manage cashflow, such as adjusting the amount and timing of various large payments and transfers or issuing certificates of

indebtedness. The Governor may also impose allotment reductions to ensure a positive cash balance in the State General Fund. A single certificate was issued for FY 2010 in the amount of \$700.0 million. This was the eleventh year in a row that a certificate was issued within a fiscal year to maintain positive cashflow of the State General Fund. Another certificate

### State General Fund Balances

*(Dollars in Millions)*

Fiscal Year	Receipts	Expend.	Balances	Percent
1997	3,683.8	3,538.1	527.8	14.9
1998	4,023.7	3,799.1	756.3	19.9
1999	3,978.4	4,196.2	540.7	12.9

2010	5,227.0	5,408.1	(130.1)	(2.4)
2011	5,767.2	5,626.6	9.8	0.2

## Approved Budget

The table on this page depicts State General Fund receipts, expenditures, and year-end balances from FY 1997 through FY 2011. The table shows significant variance in the ending balances from year to year. The low beginning balances in FY 2002 and FY 2009 reflect the beginning of several difficult budget years with revenue decreases and significant expenditure cuts.

# State General Fund Revenues

Estimates for the State General Fund are developed using a consensus process that involves the Division of the Budget, the Kansas Legislative Research Department, the Department of Revenue, and three consulting economists, one each from the University of Kansas, Kansas State University, and Wichita State University. This estimate is the base from which the Governor and the Legislature build the budget. The Consensus Group met on April 16, 2010, to revise the FY 2010 and FY 2011 estimates, which were subsequently adjusted for legislative changes. This section presents the economic assumptions upon which the estimates are based. The next section covers the revenue projected by the consensus estimating process and the adjustments resulting from legislation that affects receipts. Annual and one-time transfers follow after that. The section concludes with a table that adds the consensus numbers and the adjustments to produce a new total revenue estimate.

## Basic Economic Assumptions

The table below presents the key economic indicators used to estimate State General Fund revenues for FY 2010 and FY 2011. While the recession in Kansas appears to have either ended or maybe in its final stages, the revised estimates reflect that it will take longer than previously estimated before Kansas fully recovers from the effects of the recession that has

significantly affected the state, national, and global economies over the last two years. A great deal of uncertainty on the state's economy remains, as a number of economic indicators are estimated to show only modest improvements over the next few years.

Estimates of Kansas Gross State Product used in November of 2.6 percent for 2010 and 3.0 percent for 2011 have now been increased to 3.25 percent and 4.5 percent, respectively. The Consensus estimates were based on the continued leveling off of the state's economy in FY 2010 and the return of only moderate growth in FY 2011.

**Kansas Personal Income.** Kansas Personal Income (KPI) in 2009 decreased by 1.75 percent over the 2008 level, which was the first annual reduction since before World War II. KPI is currently expected to increase by 1.3 percent in 2010 and 3.5 percent in FY 2011. The new 2010 and 2011 estimates have improved from the KPI forecasts used in November (positive 0.7 and 2.7 percent, respectively). Current estimates are that overall US Personal Income (USPI) growth will fare moderately better than KPI, with nominal USPI estimates of 1.85 percent in 2010 and 4.75 percent in 2011.

**Employment.** Data obtained from the Kansas Department of Labor indicate that employment levels for Kansas have begun to level off after experiencing

<b>Key Economic Indicators</b>			
	2009	2010	2011
Consumer Price Index for All Urban Consumers	(0.40) %	1.80 %	2.00 %

Corporate Profits before Taxes	(2.40)	9.00	5.00
Nominal Kansas Gross State Product	(0.15)	3.25	4.50
Nominal Kansas Personal Income:			
Dollars in Millions	\$106,875	\$108,264	\$112,054
<i>Percentage Change</i>	(1.75) %	1.30 %	3.50 %
Nominal Kansas Disposable Income:			
Dollars in Millions	\$97,325	\$98,320	\$101,515
<i>Percentage Change</i>	0.70 %	1.10 %	3.25 %
Interest Rate for State General Fund (based on fiscal year)	2.20	1.28	0.97
Kansas Unemployment Rate	6.70	6.80	6.70

steep declines since July 2008. While the economy may be showing signs of improvement, the unemployment rate is not expected to fall substantially over the next two years. Current estimates by the Department are that the overall Kansas unemployment rate, which was 6.7 percent in CY 2009, is expected to increase to 6.8 percent in CY 2010 before moving down to 6.7 percent in CY 2011. These newly revised estimates suggest that as the economy adds jobs in the economic recovery, additional workers will also be entering or reentering the labor force in search of jobs, which will limit the extent to which the unemployment rate may drop.

**Agriculture.** The current supply of wheat and corn stocks in Kansas and the nation are significantly higher than a year ago, which will continue to put downward pressure on the price of these commodities in the short term. The All Farm Products Index of Prices received by Kansas farmers was 124 in March, up from 116 a year earlier. The prospective plantings report indicated that farmers expected to plant 20.1 million acres of the four major grain crops in 2010, up 2.0 percent from 2009. If realized, the amount of acres planted with corn would be the largest since 1936, while the amount of acres planted with wheat would be the lowest since 1957. Average livestock prices in mid-March were above prices from a year earlier.

**Oil & Gas.** The final estimated average price per taxable barrel of Kansas crude is now \$60 (down from the \$70 estimate used in November) and reflects the stabilization of world prices at a lower level than estimated in November. The estimated average price of \$65 per barrel for FY 2011 (down from \$75 in November) takes into account current oil futures price expectations and continued weak demand relative to the economic slowdown. As always, significant political tensions in the Middle East and elsewhere provide a great deal of uncertainty about forecasting the price of this commodity. Gross oil production in Kansas has steadily increased every year since FY 2005. However, the current forecast of 39.0 million barrels for FY 2010 is slightly below the production levels of FY 2009. Approximately half of all Kansas oil produced is not subject to severance taxation because of various exemptions in state law.

The price of natural gas is expected to average \$3.50 per mcf for FY 2010 before increasing to \$4.30 per mcf for FY 2011, based on an industry source's analysis of futures markets. The new price estimates

are below the \$3.75 and \$5.25 estimates used in the fall. Factors considered in revising the price forecasts included the relationship between crude oil and gas prices, the current relatively high storage levels for gas, limited industrial demand, and the impact of enhanced production from shale formations elsewhere in the United States. Kansas natural gas production in FY 2009 of 376.0 million cubic feet represented a significant decrease from the modern era peak of 730.0 million cubic feet in FY 1996 (largely as a result of depleting reserves in the Hugoton Field). Production has nevertheless stabilized somewhat in recent years and is expected to be 355.0 million cubic feet for FY 2010 before decreasing to 345.0 million cubic feet in FY 2011. Approximately 11.0 percent of gas produced is expected to be exempt from severance taxation in FY 2010, while this percentage is expected to drop to 9.0 percent in FY 2011.

**Inflation.** The Consumer Price Index for all Urban consumers (CPI-U) decreased by 0.4 percent in 2009, which is off slightly from the November forecast that expected the index to decrease by 0.5 percent. The current forecasts for 2010 and 2011 of 1.8 percent and 2.0 percent, respectively, indicate that inflation will likely continue to be held in check by aggressive Federal Reserve monetary policy.

**Interest Rates.** The Pooled Money Investment Board is authorized to make investments in U.S. Treasury and agency securities; highly rated commercial paper and corporate bonds; as well as repurchase agreements and certificates of deposit in Kansas banks. Low idle fund balances compared to previous years require PMIB to maintain a highly liquid portfolio, which reduces the amount of return available to the pool. In FY 2009, the state earned 2.20 percent on its S GF portfolio (compared with a 4.26 percent rate in FY 2008). The average rate of return forecasted for FY 2010 is now 1.28 percent (up slightly from the 1.05 percent estimate used in November). For FY 2011, the forecasted rate is 0.97 percent (down from the 1.22 percent rate assumed in November), but greater than expected cash balances are projected to bring in slightly more earnings to the State General Fund.

## Consensus Receipt Estimates

For the April revision, each revenue source was evaluated independently, taking into consideration the

most recent economic indicators and tax collection information from the Department of Revenue, the Insurance Department, and year-to-date receipts.

**FY 2010.** The revised FY 2010 estimate of State General Fund receipts is \$5.291 billion, which is a \$9.7 million decrease from the previous estimate made in November 2009. The revised estimate is \$296.4 million, or 5.3 percent, below actual FY 2009 receipts. This decrease from FY 2009 receipts can largely be attributed to declining tax revenues that have been partially offset by an increase in net transfers to the State General Fund.

The Legislative adjusted estimate of total taxes was decreased by \$104.6 million, while the estimate of other revenue was increased by \$94.9 million. Individual income tax, severance tax, and retail sales accounted for \$88.2 million of the decrease. Total taxes, which had grown by 1.9 percent in FY 2008 and declined by 8.4 percent in FY 2009, are now projected to decline by 5.9 percent in FY 2010. The estimate for net transfers to the State General Fund was increased by \$94.0 million. Much of this additional income was generated by an additional \$118.0 million transfer from the State Highway Fund to the State General Fund, which was partially offset by the reduction of \$25.0 million from the estimated transfer from the Expanded Lottery Act Revenues Fund to the State General Fund. The estimate for interest earnings to the State General Fund was increased by \$3.0 million, while the forecast for agency earnings was decreased by \$2.1 million for FY 2010.

The FY 2010 estimates include adjustments that are anticipated to occur as a result of enacted legislation. House Substitute for SB 572, the omnibus appropriations bill, increased net transfers by \$36.7 million. The increase can largely be attributable to an additional \$38.0 million increase in the State Highway Fund transfer to the State General Fund, including \$10.0 million of which will be additional federal funds received as a result of enactment of a primary safety belt law in HB 2130.

**FY 2011.** Receipts for FY 2011 are now estimated to be \$5.767 billion, an increase of \$476.2 million, or 9.0 percent, when compared to the newly revised FY 2010 figure. The estimate for the sales and use tax was increased by \$282.3 million as compared to the November estimate. The corporate income tax was

increased by \$10.0 million. The corporation income tax receipts estimate was adjusted for the expectation of continued positive growth in corporate profits before taxes. This estimate, which was expected in November, to increase by 9.0 percent in 2011, is now expected to increase by only 5.0 percent. However, a significant reduction in the amount of refunds are now expected which will allow an additional \$10.0 million in corporate income tax receipts to be collected than estimated in November.

On the positive side, the franchise tax was increased by \$2.0 million and the tobacco products tax was increased by \$400,000. No other tax source estimates were increased by the April revised estimate or as a result of enacted legislation.

The estimate for individual income tax receipts was reduced by \$32.8 million. Income tax receipts from financial institutions were reduced by a total of \$4.2 million. Other significant reductions to tax sources include the severance tax (\$20.4 million), the cigarette tax (\$5.0 million), and the liquor enforcement tax (\$1.0 million).

The estimate for net transfers to the State General Fund was increased by \$355.4 million. The gain from transfers in this year arose from the State General Fund receiving transfers of \$149.3 million from the State Highway Fund, \$33.0 million from the Expanded Lottery Act Revenues Fund, and \$9.7 million from the Health Benefits Administration Fund of the Health Policy Authority. Transfers out of the State General Fund were also altered with the "slider" payment of \$44.0 million suspended, the repayment of \$30.9 million to the Highway Fund also suspended, and capping the transfer to the Bioscience Authority, saving \$35.0 million.

The FY 2011 estimates were also adjusted as a result of enacted legislation. Senate Substitute for HB 2360 raises the state sales and compensating use tax rates on July 1, 2010 from 5.3 percent to 6.3 percent. This bill also expands the food sales tax rebate program, which is administered through the income tax as a credit. These changes are estimated to increase revenues to the State General Fund by a net total of \$303.6 million in FY 2011, including \$277.6 million to sales tax receipts, \$41.1 million to use tax receipts, and a reduction to individual income tax receipts of \$15.0 million.

SB 430 contained several tax provisions, including various changes to 2009 legislation designed to provide a “haircut” for selected income tax credits; amendments to a number of different tax statutes relative to the definition of the term “willfully;” and the imposition of a small fee for certain taxpayers entering into installment payment plans. The Department of Revenue is expected to use the new fee revenue to hire additional personnel to enhance delinquent tax collections. The combined provisions of the bill increase SGF receipts by an estimated \$588,000. Relative to specific tax sources, the individual income tax estimate is increased by \$775,000; the sales tax estimate is increased by \$2,043,000; and the financial institutions income tax estimate is decreased by \$2,230,000.

House Substitute for SB 572, the omnibus appropriations bill, increases SGF receipts by a total of \$368.2 million. Of this amount, an \$8.0 million (\$6.4 million individual income tax and \$1.6 million sales tax) increase is attributable to a tax amnesty program that will run from September 1 to October 15; and \$360.2 million is attributable to numerous changes in transfers detailed later in this section. Notable transfer adjustments include a new transfer of \$149.3 million from the State Highway Fund; elimination of a \$44.0 million “slider” payment to local governments; a reduction of \$35.0 million in a transfer to the Biosciences Initiatives Fund; elimination of a \$10.1 million transfer to the Special City and County Highway Fund; and inclusion of \$33.0 million in additional transfers from the Expanded Lottery Act Revenues Fund.

Senate Substitute for HB 2226, which increased traffic fines, but reduced the amount distributed to the State General Fund, will reduce agency earnings to the State General Fund by \$220,000. Senate Substitute for HB 2356, which diverts certain child care facility registration fees away from the State General Fund to a new fee fund, will reduce agency earnings by \$160,000. SB 452, which provides for an acceleration of certain liquor license fees, will increase agency earnings by \$500,000.

Two additional pieces of legislation are expected to have an impact on FY 2011 receipts, but the amount cannot be quantified. Any civil penalties levied under the Kansas Civil Protection Act for violations of the new Municipal Performance Advertising Act ( House

Substitute for SB 269) will slightly increase agency earnings. Certain new fees associated with the Naturopathic Doctor Licensure Act (House Substitute for SB 83) will also slightly increase agency earnings, as 20.0 percent of such fees are earmarked for deposit in the State General Fund.

**FY 2012 & Beyond.** Although no official estimate has yet been made for years beyond FY 2011, there are a number of provisions in statute that will reduce State General Fund receipts in future years. Legislation enacted in 2006 that decoupled the Kansas estate tax from the federal law beginning in 2007 and eliminated the Kansas tax altogether in 2010 will reduce receipts relative to the prior law by an estimated \$52.0 million in FY 2012. Legislation enacted in 2007 that phases out the franchise tax will reduce receipts relative to the prior law by an estimated \$48.0 million in FY 2012.

Receipts attributable to the tax amnesty provisions in the omnibus bill (expected to produce \$8.0 million in FY 2011 receipts) will not be repeated in FY 2012 or any subsequent year.

The state sales and use tax rates will be decreased from 6.3 to 5.7 percent on July 1, 2013 and the share of receipts to the State Highway Fund will increase. It is estimated that this will reduce SGF receipts in FY 2014 by \$351.7 million relative to FY 2013.

## Transfers

The Legislature continued the pattern of making large transfers in and out of the State General Fund. While the transfers in are from other state funds, the transfers out can be to funds within the state’s treasury (such as to the State Fair), as well as outside the treasury (Kansas Bioscience Authority).

**Transfers In.** Transfers in to the State General Fund come from a variety of sources and are detailed on the table found on page 15 for FY 2010 and on page 16 for FY 2011. Specific to FY 2010, capturing savings in special revenue funds from instituting a nother temporary suspension of payments to the Death and Disability Fund managed by K PERS generated a transfer of \$853,458. This transfer was recommended by the Governor, but a adjusted downward slightly so that the Regents institutions did not transfer their special revenue savings to the State General Fund.

An additional \$38.0 million was transferred from the Highway Fund, \$10.0 million of which comes from legislation enacted by the 2010 Legislature to impose a primary seat belt law. As the Department of Transportation scaled back its projects, savings from the reductions freed up \$28.0 million, also transferred to the State General Fund.

The annual transfer from the Lottery was reduced by \$8.5 million for FY 2010 to reflect reduced lottery ticket sales as well as a change in timing of transfers to the State General Fund. The privilege fee from the casino developer from south central Kansas was removed from the revenue estimate in FY 2010 in recognition of the delays in approving a developer for that region.

For FY 2011, the Legislature assumes the south central casino developer will sign a contract with the state and pay the \$25.0 million privilege fee, which will then be transferred to the State General Fund. Another \$44.3 million was budgeted to come from the State Highway Fund from reduced project lettings, and \$9.7 million was taken from the State's Health Insurance Benefits Fund. The Legislature imposed another quarter moratorium on the KPERS Death and Disability Fund, which is estimated to bring in \$1.9 million from special revenue funds to the State General Fund.

**Transfers Out.** For the most part, the Legislature appropriates money to agencies from the State General Fund for program operations, capital projects, or grant purposes. In some instances, however, monies are transferred out to other funds instead. For FY 2010, a total of \$140.5 million was approved to be transferred out of the State General Fund. For FY 2011, \$145.2 million was approved. Included in these amounts are

monies for the school district capital improvement state aid program, the Kansas Bioscience Authority, and for various business incentive programs. For the National Guard Museum, \$459,357 was approved in FY 2010.

The Legislature agreed with the Governor that the Bioscience Authority should be capped at a maximum transfer of \$35.0 million in both FY 2010 and FY 2011. Transfers out to local governments for the Local Ad Valorem Tax Reduction Fund, the "slider" payment to ease property tax revenue reductions were again eliminated in the budget for FY 2011. The demand transfer for Capital Outlay State Aid for school districts was also suspended again for FY 2011; it had previously been suspended for FY 2010.

## Summary Tables

The following tables provide a comprehensive comparison of the transfers into and out of the State General Fund for both FY 2010 and FY 2011. Starting with the Governor's original recommendations, which were based on the consensus revenue estimates of November 2009, the tables show the adjustments proposed by the Governor, the changes that were incorporated into the revised estimates at the April 2010 consensus revenue meeting, the modifications made by the Legislature, and the final approved transfers. The next table in this section summarizes all actual revenue to the State General Fund in FY 2009, as well as the agreed-upon FY 2010 and FY 2011 estimates, including transfers, the various tax sources, interest, and agency earnings. For reference, a table of prior year revenues from FY 2004 through FY 2009 is also provided, with key receipt sources identified.

# American Recovery & Reinvestment Act

The American Recovery and Reinvestment Act, according to Recovery.gov, has provided Kansas with \$1.7 billion in total funding awarded, \$574,780,000 in total funds received and 8,824 jobs created as of March 31, 2010. Relative to what was included by the Governor in his budget for FY 2010 and FY 2011, only one program was materially changed during the 2010 Legislative Session, which is described below.

## Human Services

### Social & Rehabilitation Services

**Extension of the Enhanced Federal Match for Medicaid.** The enhanced federal matching funds for

Medicaid programs that were approved in the American Recovery and Reinvestment Act will expire on December 31, 2010. Several attempts have been made at the federal level to extend the enhanced funding until June 30, 2010, although nothing has been approved at the time this report was published.

For FY 2011, the Legislature deleted \$131.0 million from State General Fund expenditures and added the same amount from the federal Medicaid fund to capture the estimated savings that could occur if enhanced funding is approved. The agencies that administer Medicaid programs that were affected by this funding switch are as follows: the Kansas Health Policy Authority—\$67.0 million; the Department of Social and Rehabilitation Services—\$39.4 million; the Department on Aging—\$24.2 million; and the Juvenile Justice Authority \$345,410.

## Children's Initiatives Fund

### KEY Fund Summary

All proceeds from the national settlement with tobacco companies are deposited in the Kansas Endowment for Youth (KEY) Fund. Money in this endowment fund is invested and managed by KPERS to provide ongoing earnings. Each year a transfer is made from the KEY Fund to the Children's Initiatives Fund (CIF) to finance important programs for children. The Governor's original recommendation for these transfers was based on a revenue estimate developed in the fall of

2009. Actual receipts for FY 2010 totaled \$61.1 million, which includes \$600,000 in interest earnings. This amount is \$5.6 million less than projected. This is primarily due to larger than expected payment withholdings from participating tobacco companies. The current revenue estimate for FY 2011 is \$60.5 million.

The Governor recommended an FY 2010 transfer from the KEY Fund to the CIF of \$66.9 million, which was approved by the 2009 Legislature. The decrease in

Ending Balance	\$ --	\$ --	\$ --	\$ --

actual receipts from the original projections, coupled with leaving expenditures unchanged from the amounts approved during the FY 2009 Legislative Session, resulted in a negative cash balance of approximately \$3.9 million at the end of FY 2010. Slowing some expenditures planned in FY 2010 to FY 2011 will allow the Fund to remain in the positive for FY 2010, but this shortfall will need to be addressed during the next legislative session. The Governor recommended a FY 2011 transfer from the KEY Fund to the CIF of \$67.1 million.

With the decrease in projected tobacco settlement receipts, the FY 2010 Legislature reduced the transfer from the KEY Fund to the CIF by \$9.0 million, to \$58.1 million. The table on the previous page compares the Governor's recommendation with the budget approved by the Legislature for the KEY Fund.

### CIF Summary

The table on the previous page compares the Governor's recommendation with the budget approved by the Legislature for the Children's Initiatives Fund. For FY 2010, the Governor recommended expenditures totaling \$68.3 from the Children's Initiatives Fund, which was approved by the Legislature.

For FY 2011, the Governor recommended expenditures totaling \$68,312,900 from the Children's Initiatives Fund. The Legislature approved expenditures of \$59,311,437, a decrease of \$9,001,463 from the Governor's recommendation. The decrease is attributable to eliminating \$9.0 million in the Juvenile Justice Authority's Prevention Program Grants and Intervention and Graduated Sanctions Program and using the State General Fund. The remaining decrease is attributable to the statewide K PERS Death & Disability moratorium savings.

### Approved Expenditures

The program noted here is the only one the Legislature changed from the Governor's recommended FY 2011 budget. All other programs listed in the table were left as the Governor had proposed. Schedule 2.3 details all CIF agency expenditures for FY 2010 and FY 2011.

<b>Children's Initiatives Fund</b>

### Juvenile Justice

**Prevention & Graduated Sanctions Grants.** For FY 2011, the Legislature removed \$9.0 million from the Children's Initiatives Fund and replaced it with the same amount from the State General Fund. The funding switch was done to accommodate the lower revenues estimated to be available to the CIF. In future years, JJA will have no CIF budgeted.

# Expanded Lottery Act Revenues Fund

## Fund Summary

The Expanded Lottery Act Revenues Fund (ELARF) is capitalized through transfers from the Kansas Lottery with revenue collected from initial privilege fees collected from gaming facility managers, electronic gaming machines at parimutuel racetracks, and from destination casinos authorized by the Kansas Expanded Lottery Act. The first state-owned destination casino opened in Dodge City in December 2009. Currently, no racetrack gaming facility manager has entered into a contract with the Kansas Lottery to place electronic gaming machines at a parimutuel racetrack and it is not expected that any parimutuel racetrack will reopen with electronic gaming machines in the foreseeable future.

The November 2009 consensus revenue estimate on Expanded Lottery Act revenues anticipated that newly selected gaming facility managers in Wyandotte and Sumner Counties would each pay a \$25.0 million privilege fee when contracts to manage new destination casinos became finalized sometime within FY 2010. The contract was finalized with the gaming facility manager for the Wyandotte County facility; however, the application to manage the Sumner County facility was withdrawn prior to approval. It is now expected that a new gaming facility manager for Sumner County will pay the \$25.0 million privilege fee when the management contract is awarded in FY

2011. The Kansas Lottery has not received any proposals from potential gaming facility managers in either Crawford or Cherokee County, so it is not likely that a casino manager will be approved in Southeast Kansas. The table below shows the estimated revenue that will be available in the ELARF.

The amount of revenue that the Dodge City gaming facility is expected to generate in FY 2010 was not adjusted by the April consensus revenue estimate on gaming revenues. In November, it was estimated that this facility would generate a total of \$21,379,854 in gaming revenue for FY 2010. The distribution of gaming facility revenue is based on a formula detailed in the Kansas Expanded Lottery Act and by the contract between each gaming facility manager and the Kansas Lottery. The table on the next page details where these dollars will go. The ELARF is estimated to receive 22.0 percent of the revenue, which is estimated to be \$4,703,568. The gaming facility manager in Dodge City will receive 73.0 percent of the revenue, or an estimated \$15,607,293. Dodge City and Ford County will receive a total of 3.0 percent of the revenue, which is estimated to be \$641,396, and the Problem Gambling and Addictions Grant Fund (PGAGF) will receive an estimated \$427,597, or 2.0 percent of the revenue.

The FY 2011 estimate of the gaming facility revenue at Dodge City was also not adjusted by the April consensus revenue estimate on gaming revenues. It is

<b>Expanded Lottery Act Revenues Fund Summary</b>				
	Gov. Rec. FY 2010	Approved FY 2010	Gov. Rec. FY 2011	Approved FY 2011

### Distribution of Lottery Gaming Facility Revenue

	Gov. Rec. <u>FY 2010</u>	Approved <u>FY 2010</u>	Gov. Rec. <u>FY 2011</u>	Approved <u>FY 2011</u>
Transfer to ELARF	4,703,568	4,703,568	8,045,105	8,045,105
PGAGF	427,597	427,597	731,373	731,373
Cities & Counties	641,396	641,396	1,097,060	1,097,060
Lottery Gaming Facility Managers	15,607,293	15,607,293	26,695,119	26,695,119
Total	\$ 21,379,854	\$ 21,379,854	\$ 36,568,657	\$ 36,568,657

estimated the gaming facility will generate a total of \$36,568,657 in gaming revenue in FY 2011, which will be distributed as follows: the ELARF is estimated to receive \$8,045,105, the gaming facility manager in Dodge City is estimated to receive \$26,695,119, Dodge City and Ford County will receive \$1,097,060, and the PGAGF will receive an estimated \$731,373.

The Legislature approved the Governor's recommendation to transfer all monies in the ELARF to the State General Fund in both FY 2010 and FY 2011 to balance the budget. The ELARF will have a zero balance at the end of both years. To date, all monies that have accrued to the state have transferred to the State General Fund.

# Economic Development Initiatives Fund

## Lottery Revenues

The State Gaming Revenues Fund (SGRF) receives transfers from receipts generated by the Kansas Lottery from the sale of lottery tickets. All receipts to the SGRF are then transferred to various funds in accordance with a statutory formula. By statute, any receipts to the SGRF in excess of \$50.0 million are transferred to the State General Fund. The statutory formula was adjusted in FY 2010 by requiring a full revenue transferred to the SGRF in excess of \$48,059,846 be transferred to the State General Fund. With the implementation of the new statewide accounting system, and because of declining lottery ticket sales, the Legislature approved reducing the SGRF transfer from \$77,750,000 to \$69,250,000 for FY 2010. The State General Fund is to receive \$21,190,154 in transfers from the SGRF in FY 2010.

The Legislature approved the Governor's recommendation to transfer \$72.0 million to the SGRF in FY 2011. The State General Fund is estimated to receive \$22.0 million. Approved transfers are presented in the table in the next column.

Revenues Fund. Since the Legislature approved reducing the amount available in the State Gaming Revenues Fund in FY 2010, the transfer to the EDIF was also reduced from \$42,432,000 to \$40,782,869 in FY 2010. The FY 2011 approved transfer to the EDIF was set at \$42,432,000.

The Governor's recommendation to institute a moratorium on death and disability payments made by state agencies in the fourth quarter of FY 2010 and to transfer these savings to the State General Fund was adjusted by the Legislature to allow the universities to retain its portion of the death and disability savings. The Legislature also required a 5.0 percent salary and wage reduction for certain state officers for the

remainder of FY 2010. Savings from the salary and wage reductions were retained in the EDIF.

The Legislature reduced the transfer from the EDIF to the Kansas Economic Opportunities Initiatives Fund (KEOIF) by \$800,000 in FY 2011, from \$2,050,000 to \$1,250,000. The EDIF transfer to the State General Fund was increased from \$3,018,605 to \$3,743,605. The Legislature approved the Governor's FY 2011 recommendations to transfer \$200,000 from the EDIF into the Kansas Qualified Biodiesel Fuel Producer Incentive Fund (KQBFPIF) of the Department of Revenue, \$2.0 million to the SWPF, and \$1.0 million to the Public Use General Aviation Airport Development Fund (PUGAADF) of the Kansas Department of Transportation.

The Legislature increased EDIF expenditures by a net of \$298,859 in FY 2011. The change is the result of the Legislature adding new EDIF expenditures of \$200,000 for the Academy of Math and Science at Fort Hays State University, \$75,000 for the Grain Warehouse Inspection Program at the Department of Agriculture, and \$4,095 for under market salary adjustments affecting multiple agencies. The Legislature also required a moratorium on death and disability payments made by state agencies in the fourth quarter of FY 2011 which will reduce EDIF expenditures from across multiple agencies by a total of \$16,236. The savings associated with the moratorium will be transferred to the State General Fund. Overall, the revenues and expenditures approved by the Legislature resulted in a net EDIF ending balance of a negative \$237,037, as compared to the zero balance recommended by the Governor.

## Approved Expenditures

The Legislature approved \$ 34,887,435 in EDIF expenditures for FY 2010 and \$35,274,277 for FY 2011. The new expenditures for the Kansas Academy of Math and Science at Fort Hays State University and the Grain Warehouse Inspection Program at the Department of Agriculture represent the only changes made by the Legislature to individual projects or programs. A detailed description of these new programs are presented below. Approved expenditures for this fund for FY 2011 are summarized in the table on this page. In addition,

Economic Development Initiatives Fund projects are listed in Schedule 2.4 at the back of this report.

Academy which draws talented students from across the state to live and study at the University.

### **Fort Hays State University**

**Kansas Academy of Math & Sciences.** For FY 2011, the Legislature approved \$200,000 from the EDIF for the Kansas Academy of Math and Science for high school students. The appropriation was in addition to the \$553,548 appropriation from the State General Fund. FY 2011 will be the second year for the

### **Department of Agriculture**

**Grain Warehouse Inspection Program.** The Legislature added \$ 75,000 from the EDIF for the Grain Warehouse Inspection Program in FY 2011. The additional funding will allow the agency to upgrade some equipment and fill an FTE position that has been vacant because of recent budget reductions.

# State Water Plan Fund

## Water Plan Fund Summary

The table below compares the recommendation of the Governor with the budget approved by the Legislature for both FY 2010 and FY 2011. FY 2010 started with an unencumbered balance of \$1,205,720. The Legislature made no changes to the Governor's revenue and expenditure recommendations for FY 2010, with the exception of the KPERS Death and Disability moratorium of \$2,300. Since the Governor's recommendation eliminated the \$6.0 million State General Fund transfer for FY 2010, State Water Plan expenditures for all agencies were reduced by approximately \$1.5 million, and the estimated ending balance for the fund at the end of FY 2010 drops to \$34,397.

For FY 2011, the Governor had reduced the State General Fund transfer to the State Water Plan Fund (SWPF) to \$1.35 million, requiring a \$4.5 million reduction to the amount of expenditures requested by the natural resource agencies. Although the Legislature made no changes to expenditures or revenues recommended by the Governor, three provisions were adopted regarding State Water Plan Fund appropriations and revenues. First, the Legislature created a

new water data repository initiative at the University of Kansas Biological Survey and authorized first-year funding for the program. The funding will come from a \$300,000 transfer to the Biological Survey from clean water drinking fees that are deposited in the State Water Plan Fund. Of the \$300,000 amount, \$285,849 will be transferred to KU from the Water Plan Fund and \$14,151 will be transferred out of the State Highway Fund. Consequently, the estimated balance in the Water Plan Fund for the FY 2011 approved budget has a negative ending balance. The Legislature did not create spending authority for KU

	FY 2011
Municipal Water Fees	3,270,343
Fertilizer Registration Fees	3,220,000
Industrial Water Fees	1,129,729
Pesticide Registration Fees	941,000
Sand Royalty Receipts	170,031
Stock Water Fees	372,594
Clean Drinking Water Fees	2,804,473
Fines	210,000
<b>Total</b>	<b>\$ 12,118,170</b>

directly from the State Water Plan Fund; therefore, the initiative is not reflected in the expenditure table. Second, the Legislature adopted a proviso to authorize reappropriation language for the Conservation Reserve Enhancement Program (CREP) in the State Conservation Commission budget. This will allow for any unspent funding to be carried forward into FY 2011. Third, the Legislature adopted language to authorize reappropriation authority for SWPF programs in the Department of Agriculture.

The three tables in this section detail the legislative approved expenditures and revenue for the State Water Plan Fund, the fund balance, and the agencies that use the funding to carry out water-related projects. Since there were no changes to recommended expenditures for the budget year, all agency and program titles and amounts can be found in the tables, as well as in Schedule 2.5 in the back of this report.

## Approved Expenditures

### University of Kansas

**Standardized Water Data Repository Initiative.** The Legislature introduced H B 2428, which would require the Biological Survey at the University of Kansas to establish a standardized water quality and water quantity data repository related to public water supply sources in lakes and reservoirs. The bill did not pass out of committee. Legislators, however, adopted an amendment to the appropriations bill that establishes the project and authorizes a transfer of \$300,000 in start-up money from clean drinking water fees that are repaid by local governments to the Department of Revenue for distribution. This transfer diverts money that would have otherwise gone to the State Water Plan Fund and the State Highway Fund. The Survey was also authorized to accept grants to fund the initiative in future years. Activities may include bathymetric mapping, sediment surveys, and lake assessments.

# State Employees

---

## Salaries

### State Officer Compensation Reduction

The Legislature approved a 5.0 percent reduction in compensation for certain state officer positions for a portion of FY 2010 and all of FY 2011. The Legislature defined a “state officer” as the following individuals: elected officials, each secretary of a department or other chief executive officer of a state agency in the Executive Branch, each member of the Legislature, each legislative officer and staff member, and each judge in the Judicial Branch.

Although this reduction for FY 2010 was implemented, the Governor vetoed the portion of the appropriations bill for FY 2011 that would have continued the 5.0 percent reduction. According to the Governor’s veto statement, “Eighty percent of this reduction would be absorbed by the Judicial Branch which has already reduced its spending to the point of furloughing staff. Already, Kansas’ Circuit Court salaries rank 40th in the nation for pay; this makes it difficult to attract and retain quality individuals to these critical posts. Therefore, I believe that additional cuts in this area would further harm Kansas’ justice system. Additionally, for those state officers who might retire at this time of an administrative transition, a cut will adversely impact retirement benefits...”

### FY 2011 Pay Plan

Although the Legislature made additional operating reductions to every state agency in FY 2011 beyond the Governor’s recommendations, no specific furlough or layoff plan was imposed on state agencies. In addition, no general increase was approved for state employee salaries and wages for FY 2011.

### Longevity Bonus Program

The Governor proposed and the Legislature approved longevity payments of \$50 per year of service times the number of years of service for certain employees with at least ten years of service with the state, with a

maximum payment of \$1,250. The statutory rate is \$40 per year. The Legislature did, however, lapse \$5.2 million from the State General Fund associated with longevity payments to make the program self-funded by the State General Fund agencies. The bonus applies to classified employees in the Executive Branch, non-judicial personnel at the Judiciary, and most unclassified employees in agencies of the Legislative Branch. Based on action of the 2008 Legislature, those employees hired on or after June 15, 2008, are ineligible for this bonus.

### Classified Employee Compensation Review

The Legislature approved the Governor’s recommendation to fund the salary adjustments to those classified employees who are determined to be at the greatest variance below what is paid by the market for comparable jobs within the Midwest region.

Because the Finance Council was authorized to approve distribution of the funding to agencies, the specific amounts were left as a separate item in the Governor’s budget, and not included in any agency’s budget for FY 2011. However, at the June 28, 2010 meeting of the Finance Council, amounts were approved for distribution to state agencies and have been incorporated into each agency’s approved FY 2011 budget, as shown in the schedules in the back of this report. A total of \$7.2 million was approved for this adjustment in FY 2011. The \$1.3 million appropriated but not needed will be lapsed.

## Fringe Benefits

### KPERS Death & Disability Moratorium

The Governor proposed an additional three-month moratorium on employer contributions made to the KPERS Death and Disability Group Insurance Fund in FY 2010. The Legislature approved this recommendation, and approved a similar three-month moratorium in FY 2011. For FY 2010, the moratorium generated savings for the state of \$8.4 million, including \$7.1 million from the State General Fund. For FY 2011,

the moratorium will create savings of \$12.7 million from all funding sources, including \$10.0 million from the State General Fund. In addition, savings from state special revenue funds that would have been spent on KPERS Death and Disability employer contributions in FY 2010 and FY 2011 will be swept to the State General Fund, based on a certification to the Division of Accounts and Reports by the Division of the Budget. As a result, \$769,731 was swept in FY 2010 and \$1,856,622 will be swept in FY 2011.

## Retiree Benefits

No new benefit was authorized for KPERS retirees for FY 2011. The Legislature did approve the Governor's recommendation to continue implementing a multi-year statutory increase in the maximum KPERS employer contribution rate to make the KPERS Fund actuarially sound. The rate is authorized to increase by 0.6 percentage points to 8.67 percent for FY 2011 and by 0.6 percentage points every year thereafter until the KPERS Fund is able to cover all retirement benefit obligations.

## Other Salaries

### Judiciary

The Legislature enacted Substitute for HB 2476 that would extend the current surcharge to fund non-judicial personnel through FY 2011, as recommended by the Governor. It also increased that surcharge from \$10 to \$20 dollars on most court docket fees. The increase in docket fees will generate approximately \$5.0 million. This additional funding should help the Judiciary avoid furloughs and closure of county courts in FY 2011 that it experienced in FY 2010.

## State Workforce

The Governor's recommendations, including budget amendments during the legislative session, totaled 43,088.52 positions for FY 2010, of which 41,586.61 were FTE positions and 1,501.91 were non-FTE unclassified permanent positions. The Legislature made no changes to these amounts.

For FY 2011, the Governor recommended 41,518.62 FTE positions and 1,484.91 non-FTE unclassified permanent positions, for a total of 43,003.53. The number of FTE positions approved by the Legislature totals 43,006.03, an increase of 2.50. No table additions to FTE positions include the decision by the Legislature to reopen Stockton Correctional Facility in FY 2011, adding 32.0 FTE positions. The Legislature also removed 23.50 vacant FTE positions from KNI's staffing in FY 2011.

The Legislature also removed 5.00 FTE positions from Legislative Post Audit to reflect the decision to no longer staff the 2010 Commission. By again delaying the addition of the 14<sup>th</sup> Court of Appeals Judge by one year, 3.00 positions and associated funding were removed from the Judiciary's budget for FY 2011.

## Statewide Summary of Salaries

Approved expenditures for salaries for all agencies are shown in the table on the next page. Base salaries, fringe benefits, shrinkage, and fund totals are included. To present a complete picture of salaries for the approved budget but reportable and non-reportable salary expenditures are included in the table, with the non-reportable expenditures in the Department of Administration. With the inclusion of non-reportable salary costs in the table, the totals do not match the corresponding salary totals in the schedules in the back of this document, because the schedules contain only reportable expenditures.

## **Disaster Relief**

---

To continue the state's obligation for disaster relief, the Legislature for FY 2011 added \$50.0 million from all funding sources, including \$5.0 million from the State General Fund. As the table on the next page shows, the Adjutant General's Office now estimates

\$25,899,534 in FY 2010 and \$10,173,836 in FY 2011, all from the State General Fund to finance the state's portion of the federally declared disasters. The table also shows that the state will be obligated to finance over \$33.7 million in future fiscal years.

# General Government Summary

The General Government Summary includes agencies that perform administrative services to all state agencies, offer overall policy guidance to state government, collect and distribute state revenues, and perform regulatory functions. This function of government includes the budget of elected officials, such as the Governor's Office and Attorney General; the Judicial Branch; administrative agencies, such as the Departments of Revenue and Administration; regulatory agencies such as the Kansas Racing and Gaming Commission and Corporation Commission, and other professional licensing and regulatory boards. The General Government function also includes 21 agencies with biennial budgets.

How It Is Financed

FY 2011

For FY 2010, the Legislature approved total expenditures of \$ 793,908,976 with State General Fund expenditures of \$229,758,408 and 5,834.63 authorized positions, compared to the Governor's recommendation of \$793,777,604 with State General Fund expenditures of \$229,609,422 and 5,834.63 authorized positions. For FY 2011, the Legislature approved total expenditures of \$808,007,228, with State General Fund expenditures of \$250,546,133 and 5,832.63 authorized positions, compared to the Governor's recommendation of \$809,654,427 with State General Fund expenditures of \$ 255,330,501 and 5,839.63 authorized positions. The bulk of the increase in FY 2011 is for debt payments in the Department of Administration. The Legislature's approved financing includes \$24,348,930 in FY 2010 and \$21,954,902 in FY 2011 from the Economic Development Initiatives Fund for three state agencies in the General Government Function.

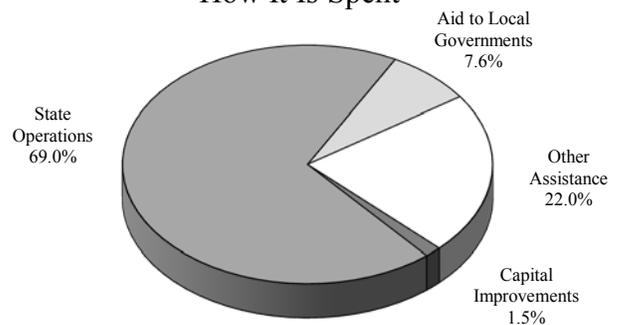

## Executive Branch Agencies

**Department of Administration.** For FY 2011, the Legislature approved reportable expenditures of \$95,691,849 from all funding sources, including \$85,746,066 from the State General Fund. For FY 2011, the Legislature did not approve the Governor's recommendation of a \$150,000 appropriation from the State General Fund for the next gubernatorial transition. This appropriation would have aided the transition to the next Governor's administration.

The Legislature reduced \$903,161 from the State General Fund appropriation for public broadcasting grants in FY 2011 and using these funds at the Kansas Commission on Veterans Affairs. This would have reduced the amount of funds available to the public broadcasting stations by 50.0 percent. However, the Governor line-item vetoed this reduction, and restored his original recommendation of \$1.8 million for grants to public broadcasting stations.

The Legislature approved bonding authority of \$36.0 million for the final phase of the Statehouse renovation project. This final phase will complete the north wing, visitor center, and rotunda renovations. Repayment of the bonds will be from appropriations from the State General Fund, beginning in FY 2012.

How It Is Spent

FY 2011

**Human Rights Commission.** For FY 2011, the Legislature approved a total of \$1,734,231, including \$1,400,855 from the State General Fund. In addition to statewide adjustments for the K PERS death and disability moratorium, under market salary payments,

and longevity bonuses, the Legislature approved a 2.5 percent State General Fund operating reduction of \$35,442.

**Board of Indigents Defense Services.** For FY 2010, the Governor recommended and the Legislature approved increasing expenditures from the Assigned Counsel Expenditures account of the State General Fund by \$686,456. This estimate was arrived at through a consensus case load process involving the Division of the Budget, the Kansas Legislative Research Department, and the agency. The revised estimate accounts for a declining case load at the reduced rate of \$62 per hour. The majority of cases are now being paid at the reduced rate of \$62 per hour, but the estimated savings from the reduced hourly rate is materializing slower than anticipated.

For FY 2011, the Legislature approved a total of \$23,157,302, including \$21,596,709 from the State General Fund. In addition to statewide adjustments for the KPERS death and disability moratorium, undermarket salary payment, and longevity bonuses, the FY 2011 approved amount includes a 2.5 percent State General Fund reduction of \$340,620, excluding expenditures from the Assigned Counsel Expenditures account. The agency indicates that the 2.5 percent reduction will result in periodic furloughs throughout the fiscal year.

**Health Care Stabilization Fund Board of Governors.** For FY 2011, the Legislature approved expenditures totaling \$35,132,158 from the Health Care Stabilization Fund. This amount is \$1,980 more than the Governor's recommendation for FY 2011. The increase is attributable to statewide salary and wage adjustments. The Legislature approved the addition of 1.00 FTE position to assist the agency in processing Open Records Act requests. The agency requested no additional expenditure authority to fund this position, so none was added.

**KPERS.** The Legislature approved \$39,411,618 from all funding sources, including \$639,134 from the State General Fund in FY 2010. Other than the statewide changes of the additional three month moratorium on KPERS Death & Disability employer contributions and a 5.0 percent reduction in compensation for certain state officers, no agency-specific changes were made by Legislature from the Governor's original recommendation for FY 2010.

For FY 2011, the Legislature approved expenditures totaling \$43,585,516 from all funding sources, including \$3,213,748 from the State General Fund. Again, there were no agency-specific changes made by the Legislature from the Governor's original recommendation for FY 2011, other than the statewide adjustments for a three month moratorium on KPERS Death & Disability employer contributions and the distribution of the state employee undermarket salary adjustments.

**Department of Commerce.** The Legislature reduced the transfer from the EDIF to the Kansas Economic Opportunities Initiatives Fund (KEOIF) by \$800,000 in FY 2011, from \$2,050,000 to \$1,250,000. The KEOIF is used to address unique opportunities or emergencies that may have substantial impact on the Kansas economy. Examples include major expansion of a Kansas business, potential location of a major employer in Kansas, or the closing of a major federal or state institution. Overall, the Legislature approved FY 2011 expenditures for the Department of Commerce of \$131,245,171, including \$15,620,199 from the EDIF.

**Kansas Lottery.** With the implementation of the new statewide accounting system, which will no longer allow transfers in July to be credited to the previous fiscal year, and because of declining lottery ticket sales, the Legislature approved reducing the State Gaming Revenues Fund (SGRF) transfer from \$77,750,000 to \$69,250,000 for FY 2010. The Legislature also approved the Governor's recommendation to transfer \$72.0 million to the SGRF in FY 2011.

The Expanded Lottery Act Revenues Fund (ELARF) receives money from the initial privilege fees paid by gaming facility managers and from a percentage of net revenue from gaming operations. The Legislature reduced the amount of ELARF revenues by \$25.0 million in FY 2010 because the only potential gaming facility manager in Sumner County withdrew its application prior to approval. It is now expected that a new gaming facility manager for Sumner County will pay the \$25.0 million privilege fee to the ELARF when the management contract is awarded in FY 2011. The Legislature approved the amounts and distribution of revenues from the Dodge City gaming facility that was recommended by the Governor for FY 2010 and FY 2011. A complete explanation of receipts to the Expanded Lottery Act Revenues Fund and the State

Gaming Revenues Fund can be found in the Budget Issues section.

**Department of Revenue.** For FY 2011, the Governor recommended total expenditures of \$109,696,415, including \$16,353,414 from the State General Fund. This recommendation would also accommodate 1,096.00 FTE positions and associated operational costs. The Legislature approved a total of \$109,858,526, including \$16,178,794 from the State General Fund. In addition to statewide adjustments for the KPERS death and disability moratorium, undermarket salary payments, and longevity bonuses, the Legislature authorized a 2.5 percent State General Fund reduction of \$401,897. The Legislature also transferred \$29,000 to the Department of Agriculture for land valuation expenses and approved an increase of \$350,000 in expenditures for the Tax Amnesty Program. These expenditures will be used for hiring additional temporary employees and other operating expenditures to process and collect anticipated amnesty revenues.

The Governor recommended and the Legislature approved expenditures of \$12.7 million in FY 2010 and \$17.5 million in FY 2011 from the Division of Vehicles Modernization Fund to continue implementation of the Division of Vehicles Modernization Project. The project involves the integration and modernization of three separate systems into one system: the Vehicles Information Processing System; Kansas Drivers License System; and the Kansas Vehicle Information System. The fees collected from a \$4 surcharge paid at the time of vehicle registration are deposited in the Division of Vehicles Modernization Fund for the sole purpose of financing this project.

## Biennial Budget Agencies

**Office of the State Bank Commissioner.** The Legislature approved an additional \$381,553 in expenditures from the Bank Commissioner Fee Fund in FY 2011 for an additional salary and wages. The additional expenditures will allow the Bank Examination Program and the Consumer and Mortgage Lending Program to fill vacant positions and to remain current on its examination schedule.

**Behavioral Sciences Regulatory Board.** In FY 2011, the Governor recommended expenditures of \$595,421

from the Behavioral Sciences Regulatory Board Fee Fund. The Legislature approved total expenditures of \$644,240. In addition to statewide adjustments for the KPERS death and disability moratorium and undermarket salary payments, the Legislature increased expenditures from the fee fund by \$36,000 for computer and laptop replacements; \$3,095 to increase the number of members on its board from 11 to 12 in compliance with the Addictions Counselor Licensure Act; and \$2,650 to amend the continuing education requirements for baccalaureate, master, and specialist clinical social requirements in accordance with legislation passed during the 2010 Legislative Session.

**Board of Cosmetology.** In addition to what the Governor recommended, the Legislature added \$15,200 from the Cosmetology Fee Fund for a replacement vehicle. Total FY 2011 expenditures for the Board of Cosmetology are \$811,546.

**Department of Credit Unions.** The Legislature added \$14,800 in FY 2010 and \$15,200 in FY 2011 from the agency's fee fund to purchase replacement vehicles beyond the Governor's budget.

**Governmental Ethics Commission.** The Legislature approved a total of \$712,380, including \$420,616 from the State General Fund in FY 2011. In addition to the statewide adjustment for the KPERS death and disability moratorium, the Legislature approved a 2.5 percent State General Fund reduction of \$40,521, which was offset by \$40,521 in additional expenditure authority from the Governmental Ethics Fee Fund. The Legislature also authorized \$4,500 in additional expenditure authority from the State General Fund to replace funding lost as a result of legislation passed during the 2010 Legislative Session.

**Board of Healing Arts.** For FY 2011, the Legislature approved expenditure authority totaling \$4,044,314 for the Board of Healing Arts. The approved amount is \$158,457 more than the Governor's recommendation. Of the increase, \$1,000 was approved for expenses associated with the Board's responsibility to register contact lens distributors and \$22,000 was approved to finance the requirements of SB 83 concerning naturopathic doctors and physical therapists. The Legislature also approved moving expenses totaling \$118,528 for the Board, whose lease will expire in FY 2011.

## Executive Branch Elected Officials

**Office of the Governor.** Although the Governor recommended reducing that portion of his budget financed by the State General Fund by 4.6 percent in FY 2011, the Legislature reduced funding by another 2.5 percent to a total of \$6.8 million from the State General Fund. Reductions of \$54,557 will be made to the agency's administrative costs, but reductions of \$116,669 will also have to be made to the domestic violence and child advocacy center programs administered by local agencies across the state. No funding was provided within the Department of Administration's budget to finance the transition to a new Governor after the November election. By law, \$150,000 is appropriated to the Department to finance these costs unique to the years when a new Governor is elected.

**Lieutenant Governor.** Similar reductions were imposed on the Lieutenant Governor's operations. The Legislature reduced the budget from \$203,227 in FY 2010 to \$191,390 in FY 2011.

**Attorney General.** The Legislature deleted the transfer of \$20,000 that had been recommended from the Crime Victims Compensation Fund to the Sexually Violent Predator Fund in FY 2010. In addition, the Legislature reduced the agency's FY 2010 budget by \$20,000 from all funding sources. In FY 2011, the Legislature switched the \$20,000 transfer to the Sexually Violent Predator Fund to come from the Court Cost Fund instead of the Crime Victims Compensation Fund.

For FY 2011, the Legislature also reduced the agency's budget by 2.5 percent or \$63,261 from the State General Fund. Also in FY 2011, the Legislature added \$350,000 from all funding sources, including \$200,000 from the State General Fund, for grants for the domestic violence prevention programs and the Children's Advocacy Centers. These funds will be passed through to the Governor's Grant Office to be disbursed. In addition, the Legislature gave the agency the authority to issue bonds in FY 2011 not to exceed \$19.0 million for expenditures related to interstate water litigation. The bonds would be subject to approval of the State Finance Council.

**Secretary of State.** For FY 2011, the Governor recommended total expenditures of \$6,733,220. The

Legislature approved a total of \$8,662,617, which includes \$435,000 in additional fee fund expenditures to publish proposed Kansas constitutional amendments. The Legislature also approved an additional \$1.5 million in federal expenditures for the Help America Vote Act (HAVA) Program to improve the elections process.

**State Treasurer.** The Legislature made no changes to the budget of the State Treasurer, but a substantive bill was enacted that will affect a program managed by the Treasurer's Office. 2010 SB 382 alters the Kansas Housing Loan Deposit Program, which provides incentives for housing construction development loans up to a total of \$60.0 million to qualified builders and developers. Through FY 2009 through FY 2011, the program must direct one-half of the funding to communities in the state affected by recent natural disasters, such as floods and tornadoes. Among the changes made by the bill enacted by the 2010 Legislature was the expansion of the definition of "house" to include multi-family dwellings, removal of the limit of one outstanding loan per borrower to allow a \$2.0 million loan cap, and moving the end date targeting one-half of the program's loans to certain communities from July 1, 2011 to December 31, 2010.

## Legislative Branch Agencies

**Legislative Coordinating Council.** Over concerns that the Legislature would not have sufficient money to run a full 90-day session, the Legislature appropriated \$550,000 from the State General Fund to the LCC for FY 2010 as a "reserve." This funding could then be transferred to another legislative agency, should it be needed prior to the end of the fiscal year. If left unspent, it will carry over to FY 2011 for use that year.

**Legislature.** As part of the annual claims bill process, \$27,521 was appropriated from the State General Fund for two counties, Harvey and Finney, through the Legislature's budget in FY 2010. In FY 2011, the Legislature imposed a number of changes to how it functions for the next year. Legislators will be limited in their postage privileges to conserve \$125,000 and interim committees will also be limited to save \$97,100. File clerks who previously updated books for legislators will be eliminated during the 2011 Session, saving \$66,399 and legislators will not

receive new full sets of bound statute books with their names embossed in order to save \$125,550. Temporary staff that clip newspaper articles and send the clippings to legislators will be also eliminated, to save \$61,098. Legislators will not receive hard bound journals of the session's activities, saving \$33,702.

These total reductions of \$508,849 were offset by the addition of \$95,000 for costs associated with the redistricting effort, which is \$20,000 for training existing staff and \$75,000 to pay the Secretary of State to provide revised census data. Also, \$639,522 was appropriated to the Legislature for FY 2011 in error, which will be presumably lapses when the 2011 Legislature is in session.

**Legislative Research Department.** With the 2010 Census, the work to redraw district boundaries of state elected officials will be the responsibility of staff within the Legislative Research Department. For this project that occurs once every ten years, the Legislature appropriated an additional \$263,811 from the State General Fund for the agency to hire temporary staff and finance associated operating costs.

**Legislative Division of Post Audit.** The budget of the Post Audit Division was reduced below the Governor's recommendations in FY 2011. The five-member school district audit team that reports to the 2010 Commission (which sunsets at the end of 2010) was eliminated, saving \$210,238. Also, the Post Audit Division was authorized to impose a new fee on state agencies to pass through the costs of the statewide

single audit, rather than appropriate \$210,425 to the agency directly. The Governor vetoed the provision in the agency's appropriation language; the additional funding appropriated to the Legislative Coordinating Council or to the Legislature could be used to finance this audit from the State General Fund, rather than require agencies to absorb additional costs not budgeted.

## Judicial Branch Agencies

**Judiciary.** For FY 2010, the Legislature approved \$120.7 million, including \$101.2 million from the State General Fund. The approved budget was inadequate to prevent four days of furloughs and office closures in FY 2010. For FY 2011, the Legislature approved \$120.8 million, including \$101.2 million from the State General Fund. That is a reduction of approximately \$3.0 million in State General Fund from the Governor's recommendation.

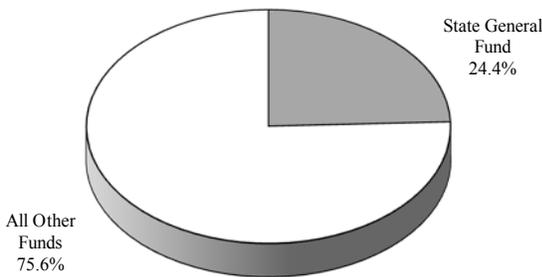

The Legislature delayed the FY 2011 appointment of the 14th Court of Appeals judge for another year. This action adjusted the budget by \$389,340 from the State General Fund and 3.00 full-time equivalent positions, which would have included the Judge and his or her support staff. Also, for FY 2011, the Legislature approved the doubling of the FY 2010 docket fee surcharge to approximately \$20 with the intent that the additional funding be used, if needed, to adequately fund staff and avoid furloughs. The surcharge is a temporary funding mechanism.

# Human Services Summary

The Human Services function provides services to individuals needing assistance from the following agencies: the Department of Social and Rehabilitation Services, the state hospitals for mental health and developmental disabilities, the Kansas Health Policy Authority, the Department on Aging, the Commission on Veterans Affairs, the Department of Labor, the Kansas Guardianship Program, and the Division of Health in the Department of Health and Environment.

SRS caseload programs by \$2.0 million from all funding sources. However, the new State General Fund estimates reflected a reduction of \$16.6 million. The increase in caseload expenditures were the result of higher expenditures in mental health programs and foster care. These increases were offset by decreases in the estimates for temporary assistance to families and general assistance. Also incorporated from the Governor's March 2010 plan to reduce the budget is the use of an additional \$15.0 million from the federal Temporary Assistance to Needy Families Fund for the Foster Care Program. Actual spending for this program has been less than originally expected and the savings can be used to replace State General Fund expenditures in foster care. Additional State General Fund savings were included in the foster care estimate from improvements to practices that increase federal funding.

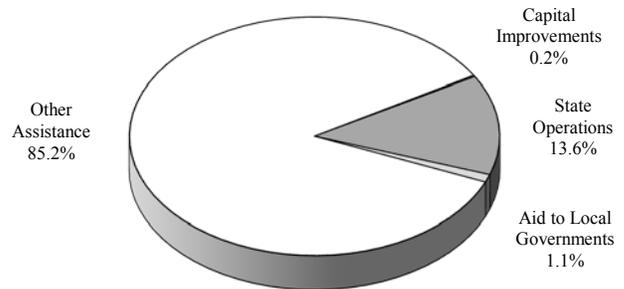

How It Is Financed

FY 2011

The Legislature approved expenditures of \$5,326,075,122 in FY 2010 and \$4,950,577,278 in FY 2011 for Human Services activities. The Governor had recommended total expenditures of \$5,320,467,151 for FY 2010 and \$4,957,934,470 for FY 2011. State General Fund expenditures included in the approved amounts are \$1,163,046,390 for FY 2010 and \$1,208,417,107 for FY 2011. The Governor's recommendation included \$1,162,996,422 from the State General Fund for FY 2010 and \$1,360,655,959 from the State General Fund for FY 2011. The approved budget for Human Services expenditures in FY 2011 represents 36.1 percent of all state expenditures and 21.5 percent of all State General Fund expenditures.

How It Is Spent

FY 2011

For FY 2011, the estimates for SRS caseload programs included a decrease of \$3.6 million from all funding sources, but an increase of \$2.6 million from the State General Fund. These adjustments included decreases from all funding sources of \$7.8 million for temporary assistance to families, and \$683,304 for general assistance. Temporary assistance to families is still expected to increase over FY 2010 expenditures, but beneficiaries and program expenditures are not expected to increase as much as was originally estimated. The estimates for psychiatric residential treatment facility and foster care expenditures were increased reflecting both an increase in children served and system capacity.

## Department of Social & Rehabilitation Services

**Caseload Estimates.** Caseload projections were revised in April 2010. As a result, the Governor increased his recommended FY 2010 expenditures for

**Governor's Budget Amendments.** The Governor amended his budget to reflect the updated human service caseload estimates discussed above. He also amended his budget to include new amounts from the State Institutions Building Fund (SIBF) in both FY 2010 and FY 2011. For FY 2010, \$261,800 was recommended, and \$1,287,000 will be needed in FY 2011 for critical repairs to the O sawatomie State Hospital electrical sub-station. This station provides power to the entire hospital grounds and consists of two transformers, one of which is out of service as a result of damage sustained in an electrical storm. To get the project started, SRS reallocated \$200,000 from within its capital budget, but additional appropriations were necessary. Monies were available in the SIBF to finance these repairs. The Legislature approved both of these amendments. Also incorporated from the Governor's March 2010 plan to reduce the budget is the implementation of a moratorium on KPERS death and disability payments for the last quarter of FY 2010. This action produced \$12.0 million in available resources while keeping the fund solvent. SRS' budget was reduced by \$309,685, including \$137,484 from the State General Fund, for this moratorium.

**Medicaid Provider Reimbursement Reduction.** The Governor's November 2009 allotment included a 10.0 percent Medicaid provider rate reduction effective from January 1, 2010 to June 30, 2010. Along with all other providers of Medicaid services, this affected providers of home and community based services for the developmentally disabled that are funded through the H CBS/DD Waiver Program. The Legislature added State General Fund money to restore the 10.0 percent Medicaid provider rate reduction for these particular providers and deleted the same amount for grants and state aid payments to Community Developmental Disability Organizations in FY 2010. This resulted in an additional \$5.5 million, all from federal funds, in FY 2010 to reflect the amount received in federal matching funds associated with the increased state Medicaid expenditures for the waiver.

Savings from the Medicaid provider rate reduction in the Governor's allotment were taken for FY 2010 only. However, since billing for the services generally runs 30 to 60 days after the actual service delivery, some savings will be realized in FY 2011. These lag-time savings were taken into account when the new consensus caseload estimates were made in April. The Legislature then deleted \$2.7 million, including

\$823,601 from the State General Fund, to capture billing delays savings expected in SRS' non-caseload programs.

**Health Care Cost Containment & Recovery Services Pilot Project.** A proviso in the budget bill directs the Kansas Health Policy Authority (KHPA) to enter into a three-year contract for a pilot project for health care cost containment and recovery services in the payment of medical or pharmacy claims. The project will include Medicaid programs in the Department of Social and Rehabilitation Services. To reflect anticipated recoveries that may result from the project, \$903,469 from the State General Fund was deleted and the same amount was added to special revenue funds.

**Extension of the Enhanced Federal Match for Medicaid.** The enhanced federal match for Medicaid programs that was approved in the American Recovery and Reinvestment Act will expire on December 31, 2010. Several attempts have been made at the federal level to extend the enhanced funding until June 30, 2011, although nothing has been approved yet. For FY 2011, the Legislature deleted \$39.4 million from the State General Fund and added the same amount from the federal funds to capture the estimated savings that will occur if the enhanced funding is approved.

**Funeral Assistance.** The Legislature eliminated funding for funeral assistance for FY 2011. Total funding of \$520,000 from the State General Fund for these payments was included in the Governor's budget recommendation. The Legislature reduced the budget by \$519,900 to leave a \$100 placeholder for the program in case the Legislature reinstates the program in future years.

**Administrative & Salary Reductions.** The Legislature deleted \$500,000 from the State General Fund in FY 2011 to reduce funding for administration of the Department. The Legislature also deleted \$4.1 million, including \$1.8 million from the State General Fund, to reduce salary expenditures in FY 2011. This reduction increases the agency's shrinkage rate to 20.5 percent.

**Centers for Independent Living.** The Governor's budget recommendation for FY 2011 included a reduction of \$1.1 million in grants to Centers for Independent Living. The Legislature added \$750,000 from the State General Fund to partially restore this reduction.

**Home & Community-Based Services for the Physically Disabled (HCBS/PD) & the Developmentally Disabled (HCBS/DD).** The Governor's recommendation for FY 2011 included an addition of \$18.8 million to cover the current estimates for all SRS HCBS Waiver programs. The Legislature approved this funding and added another \$3.3 million from the State General Fund for the HCBS/DD Waiver and \$3.6 million from the State General Fund for the HCBS/PD Waiver. Including the federal matching funds, the total addition to the HCBS/DD Waiver is \$10.9 million and the total addition to the HCBS/PD Waiver is \$11.9 million.

**State Hospitals.** For the Kansas Neurological Institute (KNI), the Legislature eliminated 23.50 vacant FTE positions. The Legislature also eliminated 2.00 vacant FTE positions at Parsons State Hospital. For expenditures at all five hospitals, the Legislature essentially adopted the Governor's budget, making adjustments for only salary and benefit recalculations common to most agencies.

## **Kansas Health Policy Authority**

**Caseload Estimates.** Caseload projections were revised in April 2010. As a result, the Governor decreased his recommended FY 2010 State General Fund expenditures for the Medicaid Regular Medical Program by \$16.4 million. The State General Fund savings in Medicaid programs resulting from the enhanced Federal Medical Assistance Percentage rate included in the American Recovery and Reinvestment Act of 2009 (ARRA) had been included in prior estimates. However, the federal government recently announced that for a limited period, the state portion of the Medicaid Clawback that all states pay will be reduced by a corresponding percentage. This reduction in clawback payments of \$16.4 million from the State General Fund, which was included in the Governor's March plan to reduce the budget, is incorporated into the caseload estimate for Kansas Health Policy Authority's (KHPA) Regular Medical Program.

The estimate for Regular Medical for FY 2011 is an increase of \$410,885, but the State General Fund portion is decreased by \$1.9 million. This State General Fund reduction is largely due to the FY 2011 clawback reduction of \$8.4 million. The Regular

Medical estimate does not include the use of a Preferred Drug List for mental health drugs as was recommended by the Governor, but it does include the use of a prior authorization system for prescription drugs and the professional rate leveling reductions. The estimate also includes estimated savings to be realized in FY 2011 from the time lag in billing for services delivered in FY 2010 when the 10.0 percent provider rate reduction was in effect. The estimates for Regular Medical services include rate changes for managed care organizations that have recently begun paying privilege fees to the Insurance Department. The Regular Medical estimate does not include any change in expenditures that will result from federal health reform.

**Health Care Cost Containment & Recovery Services Pilot Project.** A proviso in the budget bill directs the Authority to enter into a three-year contract for a pilot project for health care cost containment and recovery services in the payment of medical or pharmacy claims. The project will include Medicaid programs in KHPA, the Department of Social and Rehabilitation Services, the Department on Aging, and the Juvenile Justice Authority, as well as the State Employee Health Plan. To reflect anticipated recoveries that may result from the project in the Medicaid Regular Medical Program, \$15.8 million from the State General Fund was deleted and the same amount was added to special revenue funds. To reflect anticipated recoveries that may result from the project in the State Employee Health Plan, \$9.7 million was transferred from the Health Benefits Administration Fund to the State General Fund.

**Extension of the Enhanced Federal Match for Medicaid.** The enhanced federal matching funding for Medicaid programs that was approved in the American Recovery and Reinvestment Act will expire on December 31, 2010. Several attempts have been made at the federal level to extend the enhanced funding until June 30, 2011, although nothing has been approved yet. For FY 2011, the Legislature deleted \$67.0 million from the State General Fund and added the same amount from the federal Medicaid fund to capture the estimated savings that will occur in the Regular Medical program if the enhanced funding is approved.

**Medicaid Regular Medical Program Reductions.** After accepting the Governor's budget amendment for

consensus caseload adjustments, the Legislature recommended several policy changes for the Regular Medical Program and reduced the budget accordingly. To capture savings from limiting allowable hospice services to three months, the budget was reduced by \$4.2 million, including \$1.5 million from the State General Fund. The budget was also reduced by \$13.5 million, including \$4.1 million from the State General Fund, to reflect savings that will result from changing policies for coverage of pharmaceutical drugs. Those policy changes include applying a more aggressive pricing strategy for specialty drugs, expanding the use of the Drug Utilization Review process, not providing coverage for certain over-the-counter medications, limiting prescriptions that are being filled for the first time to a 15-day supply, limiting beneficiaries to four brand name prescriptions per month, and increasing or instituting new co-payments for certain prescription drugs.

**State Children's Health Insurance Program (SCHIP) Premium Increase.** The Legislature deleted \$11.0 million, including \$2.8 million from the State General Fund, from SCHIP to reflect an increase in monthly premiums. KHPA had estimated that an increase of \$40 per month, per participant would garner these savings. The actual premium increase that will be required will depend on enrollment during FY 2011.

**HB 2320.** The 2010 Legislature passed HB 2320 which creates an annual provider assessment on all licensed beds within skilled nursing care facilities in the State of Kansas. Revenue from the assessment will be deposited in the Kansas Health Policy Authority's Quality Care Fund. These assessments will be matched with federal Medicaid monies and will be used to finance rate re-basing and inflation. In addition, the funds will be used to increase the direct health care costs center limitations and to finance initiatives to maintain or improve the quality and quantity of skilled nursing care in Kansas.

**Administrative & Salary Reductions.** The Legislature deleted \$526,316, including \$200,000 from the State General Fund, in FY 2011 to reduce funding for salary expenditures within KHPA. This

reduction increases the agency's shrinkage rate to 16.1 percent.

## Other Human Services Agencies

**Department on Aging.** Caseload projections for the Nursing Facilities Program and Targeted Case Management Program were revised in April 2010. As a result, the Governor recommended a reduction of \$4.75 million from all funding sources, including a reduction of \$861,550 from the State General Fund for the Nursing Facilities Program in FY 2010. In addition, the Governor recommended a reduction of \$107,907 from all funding sources, including a reduction of \$38,447 from the State General Fund for the Targeted Case Management Program in FY 2011. In addition to revisions in funding for caseload adjustments, the Governor recommended reductions in funding to eliminate the fourth quarter payment to the KPERS Death & Disability account.

For FY 2010, the Legislature approved total expenditures of \$475,268,670, of which \$143,236,561 is from the State General Fund for the Department on Aging. This is a net increase of \$1,801 from all funding sources, including \$663 from the State General Fund, from the Governor's recommendation for FY 2011.

For FY 2011, the Legislature approved total expenditures of \$494,730,109, of which \$172,889,067 is from the State General Fund for the Department on Aging. In addition to the statewide salary and wage adjustments, the Legislature made reductions totaling \$145,958 to operations expenditures. The Legislature approved an \$811,303 increase from the State General Fund for the Nutrition Program for FY 2011 and a \$1,262,863 increase, of which \$382,900 is from the State General Fund, for the HCBS/FE Waiver Program to expand tele-health services in FY 2011. The Legislature approved a \$613,051 reduction, of which \$185,877 is from the State General Fund, for the PACE program for FY 2011. In addition, the Legislature captured \$502,790, of which \$152,446 is from the State General Fund, in savings associated with a billing delay tied to the ten percent Medicaid rate cut implemented for FY 2010.

Finally, the Legislature approved savings totaling \$24,221,892 from the State General Fund and an increased federal funds by a corresponding amount for the agency's four Medicaid programs. The four programs affected are the Nursing Facilities Program, Home and Community Based Services for the Frail Elderly (HCBS/FE) Program, Program for At-Risk Inclusive Care for the Elderly (PACE) Program, and Targeted Case Management Program. Additional federal funds may be made available for these programs through the American Recovery and Reinvestment Act (ARRA) which may increase the federal Medicaid match rate.

**Health & Environment—Health.** In addition to the statewide State General Funds pending reductions made for all agencies, the Legislature made several State General Fund changes to the Division of Health for FY 2011. First, funding of \$199,113 for the Teen Pregnancy Prevention Program was restored, which the Governor had cut. Second, the Legislature reduced funding for the Division by \$548,617 or 2.5 percent, and left it up to the discretion of the Division as to where they would apply the reductions. Third, the Legislature directed the Division to restore \$199,113 for the Pregnancy Maintenance Initiative by using existing resources budgeted for operating expendi-

tures. Also, as the Division was recently awarded a new federal grant, the Legislature added a new fund to the appropriation bill and allowed for expenditures in FY 2011. The Division estimates expenditures of \$3.2 million in FY 2011 from the new Health Information Exchange federal fund. This will be the first year of a four-year, \$90.0 million federal grant program to establish a statewide health information exchange program. Over the course of this four-year program, KDHE will measure and publicly report on a number of key measures including: the number of stakeholders accessing the exchange to coordinate patient care; the number of Kansans having their health care coordinated through a medical home; and, the number of Kansans participating in chronic disease management programs.

**Childcare Licensing & Inspection.** The Legislature passed and the Governor signed Senate Substitute for HB 2356, comprehensive legislation regarding the licensing and inspection of child care facilities administered by KDHE. The bill defines “competent supervision” which requires that children are within the line of sight and hearing of child care providers, and eliminates the registered family day care home category, replacing it with the more stringent requirements of the licensed family child care home category. The new bill also requires that all homes have fire extinguishers, and that providers follow new regulations regarding hand washing, storage of toxic substances, diapering, toileting, crib safety, pool safety, outdoor safety, and emergency plans.

The bill also establishes a licensing fee fund which will pay for the costs associated with administering the program, and requires KDHE to establish an online information dissemination system that is accessible to the public. HB 2356 requires stricter regulations regarding the denial of any license for a provider who has had his or her license revoked or license renewal refused because of repeat violations or for any provider who has been found to have contributed to the death or serious bodily harm of a child under his or her care. KDHE is currently in the process of adopting rules and regulations to implement the bill.

**Department of Labor.** For FY 2010, the Legislature approved total reportable expenditures of \$1,471,663,275 from all funding sources, including

\$456,079 from the State General Fund. There were no agency-specific changes from the Governor’s original recommendation outside the statewide changes of the additional quarter of the KPERS Death and Disability Fund moratorium and a 5.0 percent reduction to certain state officers’ compensation.

For FY 2011, the Legislature approved total reportable expenditures of \$1,066,201,111 from all funding sources, including \$439,481. The Legislature reduced the agency’s State General Fund operating budget by \$11,172, a part of a 2.5 percent across-the-board reduction to most state agency budgets.

**Employment Security Law Changes.** The 2010 Legislature passed HB 2676 which changes Employment Security Law contribution rates, penalties, and interest charges to ease the tax burden for contributing employers during calendar years 2010 and 2011. The charge for contributing employers in rate groups one through 32 will be that of the 2010 original tax rate computation table. Contributing employers in rate groups 33 through 51 will be capped at 5.4 percent. In addition, employers will have 90 days past the due date to pay the tax assessment without being charged interest for the first three quarters in both calendar years 2010 and 2011. The passage of HB 2676 reduces the amount of funds collected for the Unemployment Trust Fund from employer contributions, as well as the amount in interest earnings. The fiscal effect for calendar year 2011 is estimated to be a reduction of \$7,846,988 on the interest earned and a reduction of \$63,562,627 in contributions deposited in the Unemployment Trust Fund. In addition, revenue to the Penalty and Interest Fund will be reduced by \$81,250 as a result of deferring payments.

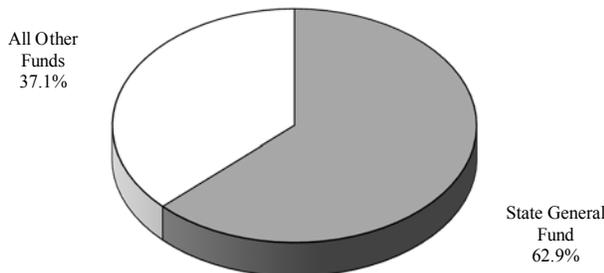

**Kansas Commission on Veterans Affairs.** For FY 2011, the Governor recommended \$20,444,672, with \$7,556,323 from the State General Fund. The 2010 Legislature approved the Governor’s budget amendment, which added \$833,856 from the State Institutions Building Fund for repair of hail damage at the Kansas Soldiers Home, and added \$700,000 from the State General Fund for operations in the Veterans Services program, the Kansas Soldiers Home and the Kansas Veterans Home.

# Education Summary

The Education function includes expenditures for state support of primary, secondary, and higher education. Agencies in this function are the Department of Education, including the Schools for the Deaf and Blind; Board of Regents and institutions under its jurisdiction; the State Historical; the Kansas Arts Commission; and the State Library. Expenditures by the Department of Education include the payment of local school district employer retirement contributions.

million from the State School District Finance Fund. The correlating base state aid per pupil (BSAPP) for FY 2010 is \$4,012 for FY 2012. The approved General State Aid payments are the same as the Governor's original recommendation.

How It Is Financed

FY 2011

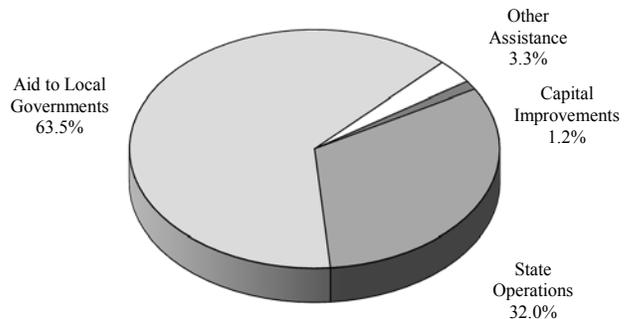

Total approved expenditures for education agencies in FY 2010 are \$6,054.0 million from all funding sources, of which \$3,612.2 million is from the State General Fund. Total approved expenditures for education agencies in FY 2011 are \$5,971.6 million from all funding sources, of which \$3,753.7 million is from the State General Fund.

## Elementary & Secondary Education

**State Aid to School Districts.** One of the primary functions of the Department of Education is to distribute over \$5.1 billion in state and federal aid to the state's 296 school districts. The full-page table in this section outlines the major sources of state, federal and local funding for school districts that was approved by the 2010 Legislature.

**General State Aid.** For FY 2010, the Legislature approved \$2.08 billion from all funding sources for general state aid payments to school districts. This amount includes \$1.90 billion from the State General Fund, \$138.7 million from the federal American Recovery and Reinvestment Act funds, and \$36.0

How It Is Spent

FY 2011

For FY 2011, the Legislature approved \$2.01 billion from all funding sources for general state aid payments, including \$1.96 billion from the State General Fund, \$52.8 million from the federal American Recovery and Reinvestment Act funds, and \$36.0 million from the State School District Finance Fund. The Legislature's approved BSAPP for FY 2011 is \$4,012, which is \$501 less than what the Governor had originally recommended, or a reduction of \$32.8 million.

**Local Option Budgets (LOB).** The Legislature approved the Governor's recommendation for the funding of the Local Option Budget, also known as Supplemental General State Aid, in both FY 2010 and FY 2011. For FY 2010, \$382.5 million was approved, including \$296.6 million from the State General Fund. For FY 2011, \$339.2 million was approved, all from the State General Fund. The FY 2010 amount includes \$86.0 million from federal Recovery Act monies not available in FY 2011.

**Special Education.** No changes were made by the Legislature to special education funding in FY 2010 or FY 2011 from the original Governor's recommendation. For FY 2010, the Legislature approved \$525.5 million from all funding sources, including \$367.6 million from the State General Fund. For FY 2011, the Legislature approved \$525.4 million

from a ll funding sources, including \$367.5 million from the State General Fund.

**KPERS-School Employer Contributions.** For FY 2010, the Legislature approved \$247.9 million from the State General Fund for KPERS-School employer contributions on behalf of school districts. After the Governor's original recommendation of \$256.0 million for FY 2010, the Legislature approved an additional quarter moratorium of employer contributions to the KPERS Death and Disability Fund, which included savings of \$8.1 million from the State General Fund for KPERS-School employer contributions.

For FY 2011, the Legislature approved \$283.5 million, all from the State General Fund. Although the Governor had originally recommended \$304.4 million, updated teacher salary projections revealed that approximately \$12.8 million in expenditures could be reduced in FY 2011. In addition, the Legislature approved another three-month moratorium of employer contributions to the KPERS Death and Disability Fund, which included additional savings of \$8.1 million from the State General Fund for KPERS-School employer contributions in FY 2011.

**Interstate Compact on Educational Opportunity for Military Children.** Developed in 2006 and adopted by 30 states so far in 2010, including Kansas, the Interstate Compact on Educational Opportunity for Military Children addresses the educational transition issues of children of military families. The Legislature funded due to the state's participation in the Compact in the amount of \$15,695 in FY 2011, all from the State General Fund.

## Postsecondary Education

The Legislature approved \$2,278.0 million, including \$747.0 million from the State General Fund for the Regents System for FY 2010. The Legislature approved \$2,237.0 million, including \$755.5 million from the State General Fund for the Regents system for FY 2011. In order to comply with American Recovery and Reinvestment Act (ARRA) maintenance of effort requirements, the State General Fund appropriation for Regents systemwide had to be at least \$747.0 million, as it was in FY 2006, in both FY 2010 and FY 2011.

The Board of Regents budget contains appropriations that will be distributed to postsecondary educational institutions, which makes budgets appear disproportionate between years. For example, transfers will include \$15.0 million from the Educational Building Fund to the universities and \$40.0 million in federal ARRA funding to universities and the other postsecondary educational institutions in the state.

The approved budgets for the Regents system include statewide changes approved by the Legislature for FY 2010 and FY 2011. For FY 2010, state officers' salaries were reduced by 5.0 percent for a three-month period. For FY 2011, the approved budgets include adjustments for a three-month moratorium on employer KPERS Death and Disability insurance payments, the self-funding of longevity, and the increases for undermarket salaries.

**Board of Regents.** For FY 2010, the Legislature approved over \$225.7 million, including \$170.8 million from the State General Fund. This reflects only a \$2,564 special revenue reduction from the Governor's recommendation for the five percent three-month state officer salary reduction. For FY 2011, the Legislature approved \$281.0 million, including \$176.4 million from the State General Fund. This is the approved budget after a veto by the Governor. Legislative intent for the Regents was to reduce postsecondary education by \$2.3 million; however, the legislation inadvertently cut \$9.5 million. To correct this error, the Governor vetoed the item. The veto ensured the state's compliance with requirements for accepting federal ARRA funding. An adjustment will be made in the FY 2011 revised budget for a \$2.3 million cut to accommodate the legislative intent. The only other adjustment to the Governor's recommendation, other than statewide adjustments, was the inclusion of \$4,331 from the State General Fund to fully fund the Midwestern Higher Education Commission dues of \$95,000.

As mentioned above, the FY 2011 budget includes \$40.0 million from the ARRA, as it did the FY 2010 budget, to be distributed by the Board of Regents to postsecondary institutions at the Board's discretion. The transfers will be shown in the receiving institutions budget after the beginning of the fiscal year. The universities will use forty percent of their share of the ARRA funding for capital repair projects.

**Fort Hays State University.** The FY 2011 approved budget is \$85.6 million, including \$33.8 million from the State General Fund. The Legislature added new funding for the Kansas Academy of Math and Science; \$220,360 from the State General Fund and \$200,000 from the Economic Development Initiatives Fund. Total funding for the Academy was approved at \$753,548. The Legislature also added \$635,100 from interest earnings for infrastructure support that had been inadvertently left out of the budget. The Legislature approved the sale of property for \$320,574, the funding will be used for operations.

**University of Kansas.** For FY 2011, the Legislature approved \$616.3 million, including \$137.4 million State General Fund. The only statewide budget adjustment the University will receive is a reduction of \$678,633, including \$179,658 from the State General Fund for the three-month employer contribution to the KPERS Death and Disability moratorium. The University of Kansas has only unclassified employees; therefore, it is unaffected by the statewide adjustments for undermarket rate salaries and longevity bonus payments. In FY 2011, the Legislature also established the Standardized Water Data Repository Fund. That fund will receive a \$300,000 transfer; projects will include bathymetric mapping, sediment surveys, and lake assessments.

## Other Education Agencies

**Kansas Arts Commission.** The Governor recommended \$1,951,351 with \$1,204,047 from the State General Fund for FY 2011 for the Kansas Arts Commission. The 2010 Legislature reduced the State General Fund amount dedicated to arts programming and challenge grants by \$393,100, leaving a total of

\$949,305, with \$554,263 from the State General Fund for grants.

**School for the Blind.** For FY 2011, the Legislature added \$239,700 from the State Institutions Building Fund to replace the Johnson Building roof, which leaks during periods of heavy rainfall. The Johnson Building provides space for elementary and high school classrooms, student therapy, and orientation and mobility services. The roof was last replaced in 1988. This project was not recommended by the Governor.

**School for the Deaf.** The Legislature added enhanced funding of \$339,415 from the State Institutions Building Fund to upgrade the School's existing electrical distribution system, which has become inadequate in meeting the demands of current energy usage levels. The project will change the current 12,740-volt central distribution line to a 480-volt building-by-building system. The Governor had not recommended this project.

**Historical Society.** For FY 2011, the Governor recommended \$9,087,067, with \$5,474,110 from the State General Fund. The Legislature reduced the State General Fund recommendation by \$134,530. The agency plans to implement this reduction by holding positions open and reducing operating expenditures where possible.

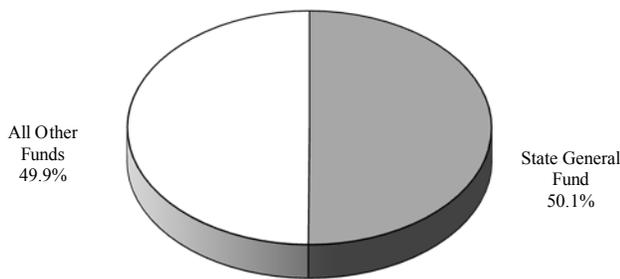

**State Library.** For FY 2011, the Governor recommended \$6,392,519, with \$4,482,054 from the State General Fund. The 2010 Legislature decreased the State General Fund amount by \$110,150. The agency will implement this decrease through reductions to operating expenses, Grants in Aid, and the Interlibrary Loan Development program.

# Public Safety Summary

Agencies of the Public Safety function protect Kansas citizens by managing the state correctional system, investigating crimes, regulating emergency services, enforcing fire regulations, serving the public in emergencies, and enforcing state laws. Included in this function are the Department of Corrections and eight adult correctional facilities, the Juvenile Justice Authority and four juvenile correctional facilities, the Adjutant General, the Emergency Medical Services Board, the State Fire Marshal, the Highway Patrol, the Kansas Bureau of Investigation, the Parole Board, the Sentencing Commission, and the Kansas Commission on Peace Officers Standards and Training.

\$3.6 million from the State General Fund for the correctional facilities to reduce historically high budgeted rates of staff turnover was adopted by the Legislature. The new funds will be used to preserve correctional officer personnel levels to ensure facilities are properly staffed and safely secured. The funding will also prevent the possible closure of housing units at various facilities, which would have required the early release of some inmates.

How It Is Financed

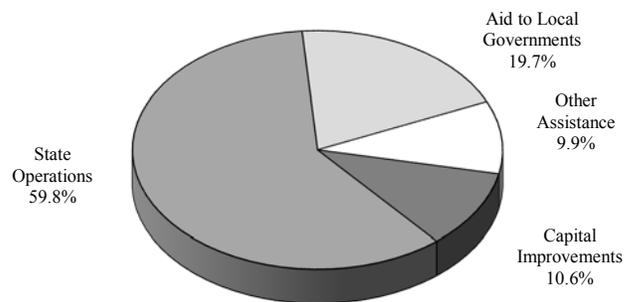

FY 2011

For FY 2010, the Governor recommended \$749,967,442 from all funding sources for this function including \$367,027,881 from the State General Fund. The Legislature approved a budget totaling \$750,421,548 from all funds, of which \$367,022,557 was from the State General Fund. The Governor's recommendation for FY 2011 was \$686,184,641 from all funding sources, including \$354,228,955 from the State General Fund. The Legislature approved \$740,261,627 from all funds, including \$370,880,019 from the State General Fund which represents a \$16,651,064 increase from the Governor's State General Fund recommendation.

## Adult Corrections

**Correctional Facility Staffing.** The Governor's FY 2011 recommendation to provide enhanced funding of

How It Is Spent

FY 2011

**Reopen Stockton Correctional Facility.** In August of FY 2010, the Kansas Sentencing Commission estimated that the male inmate population would exceed prison capacity by 13 beds by the end of FY 2011. On June 1, 2010, the male inmate population exceeded capacity by 102 beds. To increase bedspace for the Department of Corrections, the Legislature appropriated \$1.7 million from the State General Fund and added 32.0 FTE positions to reopen the Stockton Correctional Facility, which is a satellite minimum security inmate work facility administered by Norton Correctional Facility. Operations at Stockton were suspended in FY 2009 as a result of Department budget cuts that year.

**Offender Programs.** So that limited State General Fund resources could be directed to maintaining critical areas of Department of Corrections operations, such as securing the inmate population, the Governor's budget recommendation resulted in most substance abuse treatment programs being unfunded in FY 2011. The Legislature restored some of those programs by adding \$494,500 from the State General Fund for 52

male Therapeutic Community substance abuse treatment beds at Ellsworth Correctional Facility and 24 female beds at Topeka Correctional Facility.

**Forensic Psychologists.** For FY 2011, the Legislature added \$270,000 from the State General Fund to restore forensic psychologist services, which the Department of Corrections eliminated from its inmate medical and mental health care contract as a result of budget reductions. The legislative action will allow the three psychologists, who are employed by the contractor, Correct Care Solutions, Inc., to continue performing evaluations on both violent offenders and sex offenders. The evaluations result in clinical service reports used by the Attorney General, the Kansas Parole Board, and the Department of Corrections.

**Supervision Fees.** Current law requires offenders who are placed under probation or assigned to a community correctional services program to pay fees, in varying amounts depending on the placement and the conviction. 2010 HB 2581 eliminates the previous fees and establishes a single correctional supervision fee for probation and community correctional service offenders, and increases the amounts. A portion will go to the new Correctional Supervision Fund, which must be used for the implementation of and the training for use of a statewide, mandatory, standardized offender risk assessment tool or instrument as specified by the Kansas Sentencing Commission. The proceeds must also be used for evidence based offender supervision programs by Judicial Branch personnel. Any remaining funds could be used to support court offender supervision programs.

## Juvenile Justice

**Purchase of Services.** The Legislature concurred with the Governor's budget amendment to reduce expenditures by a net total of \$373,837 for "purchase-of-services" programs in FY 2010. Of that amount, \$914,847 was reduced from the State General Fund and \$541,010 was increased from other funding sources. In FY 2011, the Legislature approved the Governor's budget amendment to increase caseload expenditures by \$1,651,425, including \$414,556 from the State General Fund. The Legislature also deleted

\$345,410 from the State General Fund and replaced the money with the same amount in federal funds in FY 2011 to capture savings associated with the proposed extension of the enhanced federal match for the Medicaid program from December 31, 2010 to June 30, 2011. In FY 2011, the Legislature removed \$90,406 from the State General Fund and replaced the funding with the same amount from special revenue funds to reflect funding adjustments related to the implementation of the Health Care Cost Containment and Recovery Services pilot project.

**Children's Initiatives Fund.** For FY 2011, the Legislature removed \$9.0 million from the Children's Initiatives Fund and replaced it with funding from the State General Fund in the same amount. The \$9.0 million will continue to be used to fund prevention and graduated sanctions grants.

## Other Public Safety Agencies

**Adjutant General.** For FY 2011, the Legislature approved an additional \$50.0 million from all funding sources, including \$5.0 million from the State General Fund, to finance disaster relief expenditures. The total disaster funding for FY 2011 is approximately \$93.4 million from all funding sources, including \$10.2 million from the State General Fund.

**Kansas Bureau of Investigation.** The Legislature passed Senate Substitute for HB 2226, which will provide the agency with a portion of district court fines and penalties for traffic infractions. The monies received will go to the agency's newly created Criminal Justice Information System (CJIS) Line Fund. To account for the increase in revenue for the CJIS lines, the Legislature increased the agency's FY 2011 expenditure authority by \$442,000, offset by a reduction of \$218,000 from State General Fund appropriations.

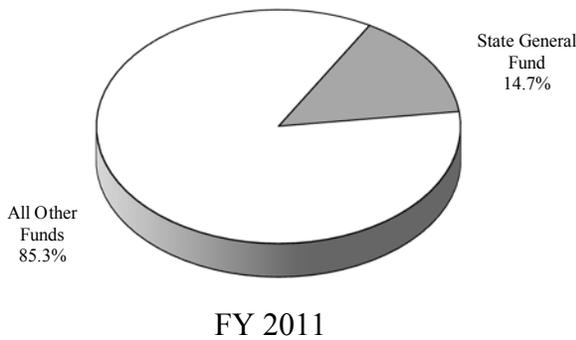

**Parole Board.** The Legislature concurred with the Governor's recommendation to provide additional funding of \$28,090 and \$28,609 from the State General Fund in FY 2010 and FY 2011, respectively. The added monies will be used to cover budget shortfalls in rent expenses for space in the Landon State Office Building.

# Agriculture & Natural Resources Summary

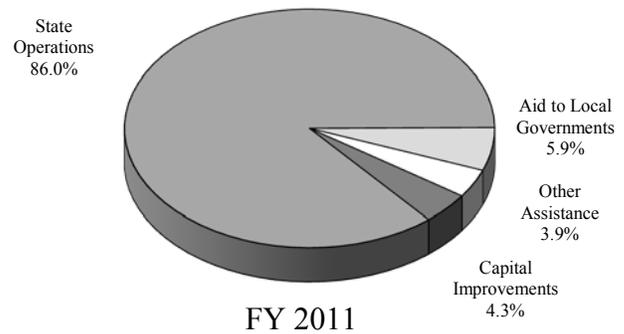

The Agriculture and Natural Resources agencies promote, protect, and restore natural resources in Kansas. This includes agricultural product regulation and inspection through the Department of Agriculture; regulation of confined animal feedlot operations by the Department of Health and Environment; maintenance of state parks and wildlife areas through the Department of Wildlife and Parks; conservation of soil and water resources by the Kansas Water Office and the State Conservation Commission; public health maintenance through the control of animal infectious disease by the Animal Health Department; and, promotion of Kansas products by the Kansas State Fair.

resource agencies, with the exception of the Kansas Water Office and the State Conservation Commission. The Legislature provided start-up funding of \$300,000 for an initiative that will require the KU Biological Survey to establish a standardized water quality and water quantity data repository related to public water supply sources in lakes and reservoirs.

How It Is Financed

How It Is Spent

The 2010 Legislature approved expenditures of \$195,110,393, including \$27,180,226 from the State General Fund and \$16,172,679 from the State Water Plan Fund for FY 2010. The approved amounts were slightly lower than the Governor's revised estimate for the current year as a result of statewide salary and wage reductions. For FY 2011, the Legislature approved expenditures of \$183,427,527, including \$26,881,618 from the State General Fund and \$15,083,507 from the State Water Plan Fund. The approved amounts are slightly lower than the Governor's recommendation for FY 2011 because of statewide salary and wage reductions.

**Department of Agriculture.** The Legislature reduced by \$233,797, or 2.5 percent, the State General Fund financing recommended by the Governor for FY 2011. Funding was added for two programs: Grain Warehouse and Agriculture Statistics in order to increase available resources for both programs that have had State General Fund reductions during the past two years. A transfer of \$75,000 from the Economic Development Initiatives Fund to the Grain Warehouse Program in FY 2011 will allow for continued inspections and program activities. In addition, \$29,000 from the State General Fund will be transferred from the Department of Revenue to the Agriculture Statistics Program in FY 2011 that will fund a contractual agreement the Department of Agriculture has to continue the program. Funding for the Department for FY 2011 totals \$25,523,973, including \$994,732 from the State Water Plan Fund, and \$9,303,960 from the State General Fund.

Aside from the global State General Fund reductions made to all agencies, the Legislature made one substantial change to the Governor's recommendations for FY 2011. The Legislature instituted a 2.5 percent State General Fund reduction for most of the natural

**Animal Health Department.** For FY 2011, the Governor recommended \$2,627,255 from all funding sources including \$798,253 from the State General Fund. In the approved budget of \$2,625,728, which includes \$779,478 from the State General Fund, the Legislature applied a \$19,618, or 2.5 percent, State

General Fund reduction to Animal Health Department operations. The Legislature also passed and the Governor signed into law HB 2666, which will increase various Department fees that are collected to monitor the health of livestock in Kansas. The bill will increase market license renewal fees, the fee per head of livestock at public markets and electronic auctions, and fees for domesticated deer permits. The fee schedule for cattle feedlot license renewals, which is based on ranges of the number of head of livestock, will increase fees on existing ranges and assess fees on new ranges to account for high capacity facilities. HB 2666 will also create a separate fee schedule, based on animal units, for swine, sheep, and goat feedlot operators. In sum, the fee increases are estimated to add \$295,710 in revenue to the Department.

**State Conservation Commission.** The Legislature adopted the Governor's FY 2011 recommended funding with the exception of the statewide salary and wage changes adopted by the Legislature. The final approved amount is \$10,290,048, including \$739,154 from the State General Fund. Several provisos were adopted by the Legislature regarding the agency's primary funding source, the State Water Plan Fund. First, the Legislature authorized reappropriation language for the Conservation Reserve Enhancement Program (CREP) so that money that was unspent in FY 2010 will be carried forward into FY 2011. The program is a targeted, voluntary program that provides incentives and cost-sharing options for enrollees that agree to permanently retire the water rights tied to their land. The CREP area lies within ten counties along the Arkansas River corridor, covering 1,571,440 acres.

Second, a proviso was adopted regarding the Multipurpose Small Lakes Program so that the agency can offer 100.0 percent funding for approved streambank stabilization projects instead of the current cost-share formula of 80.0 percent state funding and 20.0 percent landowner funding. Third, the Legislature adopted a proviso that allows for an alternate construction and implementation plan for the Washington County low water dam project on the Big Blue River. The original estimate for the water supply project for Kansas Rural Water District Number 1,

adopted by the 2008 Legislature, was between \$5 and \$6 million. The alternate plan is estimated to be approximately \$800,000, and should adequately serve the water needs for users in the water district.

**Health & Environment—Environment.** For FY 2011, the Legislature reduced the Division's number of FTE positions by 3.00 and reduced the Governor's recommended State General Fund appropriation by \$191,193, a reduction of 2.5 percent. The Division requested and the Legislature adopted a proviso that will establish a new fund, the QuantIFERON TB special revenue fund that will allow the agency to deposit receipts from Regents institutions that wish to contract with the Division of Environment Labs for testing for tuberculosis and other communicable diseases. Total expenditures for the Division total \$70,683,858 including \$ 3,044,612 from the State Water Plan Fund, \$ 1,897,345 from the Children's Initiatives Fund for Newborn Screening, and \$7,571,014 from the State General Fund.

**University of Kansas Biological Survey.** The Legislature introduced HB 2428, which would require the Biological Survey at the University of Kansas to develop a standardized water quality and water quantity data repository related to public water supply sources in lakes and reservoirs. The bill did not pass out of committee. Legislators, however, adopted an amendment to the appropriations bill that establishes the project and authorizes a transfer of \$300,000 in start-up money from clean water drinking fees that are collected locally and deposited in the State Water Plan Fund and State Highway Fund. The Survey will be authorized to accept grants to fund the data collection and repository in future years.

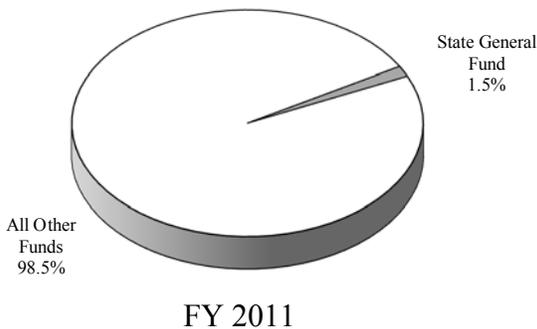

**Department of Wildlife & Parks.** For FY 2011, the Governor recommended \$59,479,225, with \$5,528,736 from the State General Fund. The 2010 Legislature reduced the State General Fund appropriation by \$527,244 and increased the authorization for expenditures from the Parks Fee Fund by the same amount. The Legislature also approved additional expenditures of \$84,000 from the Wildlife and Boating Fee Funds for 1.00 additional FTE position, a Natural Resources Officer who will serve in Osage County.

# Transportation Summary

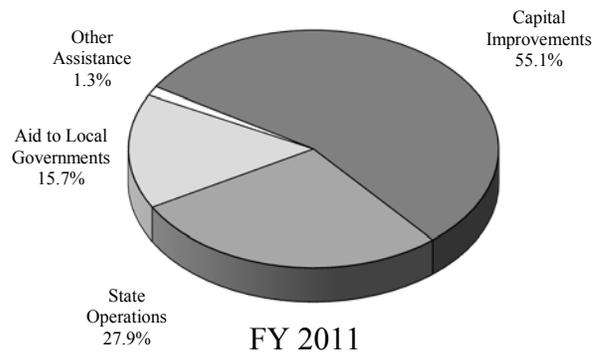

Expenditures in the Transportation function include aviation, railroads, waterways, public transportation, as well as maintaining the state's 10,000-mile highway system. The Kansas Department of Transportation (KDOT) is the primary agency in the transportation function. In FY 2006, bonds totaling \$210.0 million were issued for the Comprehensive Transportation Program (CTP). The debt service payments are made by the Department of Administration through appropriations in the State General Fund. The bonds were approved by the 2004 Legislature. The debt service payment in FY 2010 will be \$8,848,975 and the FY 2011 debt service payment will be \$16,150,975. Assistance is provided by the Department of Transportation to local governments through project development, planning, design, and financial assistance to improve the safety and quality of local roads, streets, and bridges.

also approved the Governor's budget amendment to transfer \$28.0 million from the State Highway Fund to the State General Fund in FY 2010 by reducing \$86.5 million in maintenance projects. The Legislature concurred with the Governor's recommendation to transfer \$105.0 million from the State Highway Fund to the State General Fund in FY 2011, but also approved an additional transfer of \$44.3 million. This latter transfer is the balance of the cash savings from the \$86.5 million in maintenance projects that were reduced in FY 2010. The Legislature passed and the Governor signed Senate Sub. for Senate Sub. for HB 2650, which will initiate a ten-year transportation plan for the State of Kansas. The total cost of the plan is \$8.2 billion, with funding provided by an increase in heavy truck registrations, sales and use taxes, and bonds issued by KDOT.

How It Is Financed

How It Is Spent

The Governor recommended expenditures of \$1,284,776,506 in FY 2010 and \$1,057,095,686 for FY 2011. The 2010 Legislature approved expenditures of \$1,284,800,402 for FY 2010 and \$1,060,203,855 for FY 2011. For FY 2010, the majority of authorized expenditures will come from the State Highway Fund with \$909,572,643 to be spent in FY 2010 and \$702,881,611 in FY 2011. The Legislature passed and the Governor signed HB 2130, which will institute a primary seatbelt law in Kansas. Because of the passage of this legislation, Kansas will receive \$10.0 million in flexible federal funds. The Legislature concurred with the Governor and transferred the \$10.0 million from the State Highway Fund to the State General Fund in FY 2010. The Legislature

## Department of Transportation

**Comprehensive Transportation Program.** The Legislature passed and the Governor signed legislation establishing the Transportation Works for Kansas (T-WORKS) Program. T-WORKS is a ten-year \$8.2 billion comprehensive transportation program aimed at improving the state's transportation system. The program includes \$2.7 billion in new revenues that will come from increased registration fees for heavy trucks, an additional bonding authority for the Kansas Department of Transportation (KDOT), and a dedication of sales tax that takes effect in FY 2014. KDOT will collect additional revenues in FY 2011, FY 2012, and FY 2013. The additional revenue for

the sales tax comes from the passage of HB 2360. The bill raises the state sales tax rate from 5.3 percent to 6.3 percent beginning in FY 2011. At the end of three years, the sales tax rate will be lowered to 5.7 percent with the additional 0.4 percent being credited solely to the State Highway Fund.

KDOT estimates that T-WORKS will increase or sustain 175,000 jobs in Kansas over the next ten years. T-WORKS provides for \$4.6 billion in highway preservation, which is the same amount recommended by the Transportation-Leveraging Investments in Kansas (T-LINK), the Governor's transportation task force. The plan will provide for \$1.7 billion in new construction funds. Further, T-WORKS will increase funding for public transit services from \$6.0 million a year to \$11.0 million and aviation funding will increase from \$3.0 million to \$5.0 million. Both increases will become effective beginning in FY 2014. T-WORKS will provide \$5.0 million in funding for rail service beginning in FY 2014. KDOT will also be required to spend a minimum of \$8.0 million in each county in Kansas during the course of the program. The plan gives KDOT the authority to manage debt under a cap. The cap ensures that the amount the State Highway Fund owes in debt service in any given year does not exceed 18.0 percent of projected State Highway Fund revenues.

The tables below illustrate the total projected revenues and expenditures for the T-WORKS program:

<b>T-WORKS Revenues</b>	
<i>(Dollars in Millions)</i>	
State Sales Tax	1,480
Bonds Issued	1,080
Heavy Truck Registration Fees	132
Existing Revenue	5,486
Total	\$8,178

**Legislation.** The Legislature passed and the Governor signed HB 2436, HB 2535, HB 2555 and HB 2678. The four bills increased the agency's expenditure limitation on the State Highway Fund by a total of \$21,340 in FY 2011. The additional expenditure

<b>T-WORKS Expenditures</b>	
<i>(Dollars in Millions)</i>	
Highway Preservation	4,626
Transit	100
Aviation	46
Rail	40
Special City/County Highway Fund	1,628
Remaining for Construction	1,738
Total	\$8,178

authority will be for donations received to place signs recognizing individuals identified these bills.

**Primary Seatbelt Law.** HB 2130, the primary seatbelt law, was passed by the Legislature and signed by the Governor. This bill will require every occupant of a vehicle to wear a safety belt. Law enforcement officers will now be able to stop vehicles for a violation of this provision by anyone in the front seat or anyone under 18.

**State Highway Fund.** For FY 2010, the Governor recommended a budget amendment to transfer \$28.0 million from the State Highway Fund to the State General Fund by reducing maintenance projects by \$86.5 million. The Legislature concurred with the Governor. The Legislature then went on to transfer \$44.3 million from the State Highway Fund to the State General Fund in FY 2011 to capture the rest of the savings from reducing projects. The transfer will capture the FY 2011 savings for the \$86.5 million in maintenance projects that were reduced in FY 2010.

<b>Comprehensive Transportation Plan</b>		
<b>Construction Costs</b>		
<i>(Dollars in Thousands)</i>		
	<u>FY 2010</u>	<u>FY 2011</u>

# Debt Service

---

## Types of Debt

The State of Kansas uses debt financing to pay certain state expenditures. Traditionally, such expenditures have included capital improvement projects because of the magnitude of the cost and the long-term nature of the projects. However, since the mid-1990's, the state has begun to finance other non-capital improvement costs associated with the operation of state government

Debt can be divided into five distinct categories, which are described in greater detail in Volume 1 of *The 2010 Governor's Budget Report*, and include traditional bonds, PMIB loans, the Facilities Conservation Improvement Program, and third party and other miscellaneous debt. The numbers reported in the table are the same as those debt service amounts that the Governor recommends and the Legislature approves in agency budgets. The table does not reflect the total debt service obligation to bondholders. The total obligation would include monies that are used to defray debt service cost. The 2010 Legislature enacted additional bonding authority for the statehouse renovation and a new phase of the Highway Plan. This reflects the state's traditional use for bonding capital improvements.

## Indebtedness of the State

As of June 30, 2010, various state agencies had legislative authorized but unissued debt of \$ 358.0 million compared to \$ 540.4 million as of June 30, 2009. Debt service payments constitute a small part of the overall state budget. The State of Kansas has consistently demonstrated strong fiscal management practices, carefully maintaining expenditures in line with revenues, thereby avoiding the need for restrictive statutory debt limits.

## Debt Projects

Following a brief description of large ongoing projects or those that compare the Governor's recommendation for debt financed projects with legislative adjustments or additions.

## Department of Administration

**Statehouse Renovation Bonds—Phase V.** The Legislature approved bonding authority of \$ 36.0 million for the final phase of the Statehouse renovation project. This final phase will complete the north wing, visitor center, and rotunda renovations. Repayment of the bonds will be from appropriations from the State General Fund, beginning in FY 2012.

## Board of Regents

**Postsecondary Education Institutions Debt Service.** To aid the state's other postsecondary educational institutions, including Washburn University, community colleges, and vocational-technical institutions, with their infrastructure repair projects; the 2007 Legislature authorized \$20.0 million annually in bonding authority for the Regents system. Total bonding is to be capped at \$100.0 million. Debt service interest on bonds is paid with State General Fund dollars and the institutions pay principal. At the end of FY 2009, \$40.0 million in bonds had been issued and the state is obligated for approximately \$5.0 million annually in interest payments. The authority to issue these bonds has been temporarily suspended because of the current economic constraints on State General Fund expenditures.

## Adjutant General

The Governor recommended and the Legislature approved language to authorize the Adjutant General issue the last of the \$3.0 million in bonds for the Armory Renovation Plan. After this last issuance, the agency will have issued a total of \$ 31.0 million in bonds to rehabilitate certain armories across the state. Debt service on this last round of bonds will start in FY 2012.

## Department of Transportation

The 2010 Legislature passed and the Governor signed HB 2650, which will provide for a ten-year \$8.2

billion transportation plan. Bond issuances cannot exceed 18.0 percent of projected State Highway Fund revenues for the current or any fiscal year. The plan will be primarily funded by the issuance of bonds by

the agency, a 0.4 percent sales tax increase beginning in FY 2014, and an increase in heavy truck registrations. In FY 2011, the agency plans to issue \$300.0 million from the State Highway Fund in bonds.

# Capital Budget

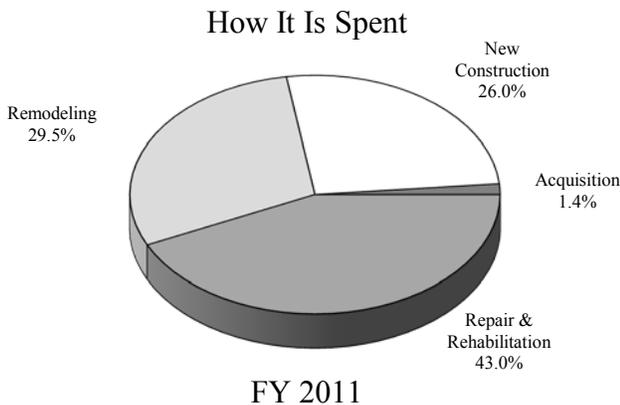

---

# Capital Budget Summary

A revised estimate of \$985.4 billion from all funding sources was recommended by the Governor for capital improvements in FY 2010. This amount represents a net decrease of \$86.3 million from the Governor's FY 2010 capital improvement budget estimate published in *The FY 2011 Governor's Budget Report*. The decrease is the result of two budget amendments proposed by the Governor. The first budget amendment added \$261,800 from the State Institutions Building Fund (SIBF) for critical repairs to the Osawatomie State Hospital electrical sub-station. The second amendment decreased \$86.6 million from the State Highway Fund as a result of the Kansas Department of Transportation (KDOT) canceling nearly all maintenance projects that had not been started in FY 2010.

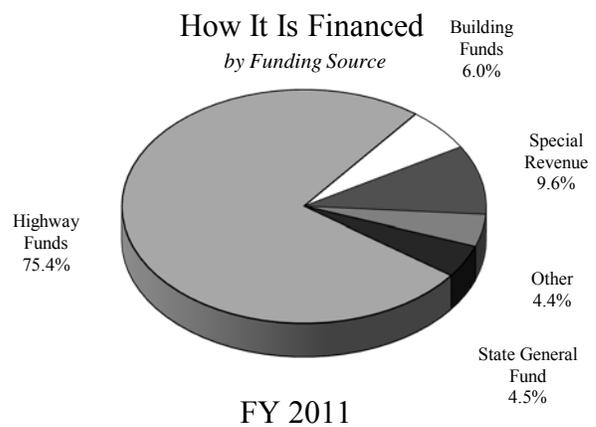

amendments: \$1,287,000 to continue electrical sub-station repairs at Osawatomie State Hospital; and \$833,856 to replace roofs damaged by a hail storm at the Kansas Soldiers Home. The amendments were adopted by the Legislature in its FY 2011 approved capital improvements budget of \$764.5 million from all funding sources, which is a \$2.8 million increase over the Governor's recommendation. Approximately one-third of the increase can be attributed to three new projects approved by the Legislature including \$239,700 from the SIBF to replace the Johnson Building roof at the School for the Blind; \$339,415 from the SIBF to upgrade the electrical distribution system at the School for the Deaf; and \$635,100 in additional regent fund rehabilitation and repair money for Fort Hays State University. The remaining \$1.9 million is for additional costs for KDOT construction operations. The Legislature's State General Fund recommendation of \$34.4 million includes a reduction to Department of Administration rehabilitation and repair projects and a deletion of monies for the Judiciary to remodel office space.

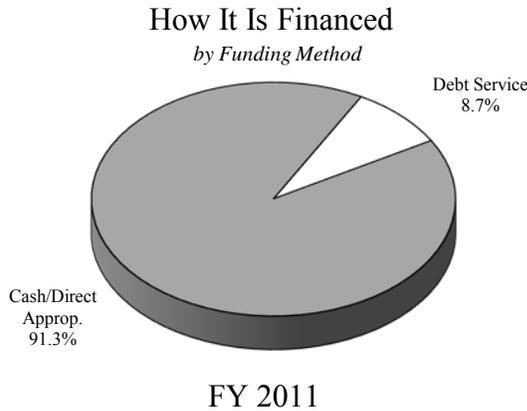

Consistent with the information shown in *The FY 2011 Governor's Budget Report*, a pie chart of the approved FY 2011 budget by project classification is shown on this page. The following pie charts present two views of how the capital budget is financed. The first pie chart below illustrates the approved capital budget by source of financing.

The Legislature's approved FY 2010 capital improvement budget of \$985.8 million includes the Governor's budget amendments as well as an increase of \$459,357 of special revenue monies for the Adjutant General to expand the National Guard Museum. The Legislature also concurred with the Governor's recommended State General Fund capital expenditures of \$13.2 million.

For FY 2011, the Governor recommended a capital budget of \$761.7 million from all funding sources including \$34.7 million from the State General Fund. The all funds amount is an increase of \$2,120,856 from the Governor's recommendation published in *The FY 2011 Governor's Budget Report*. The modified recommendation includes two SIBF budget

The next pie chart presents FY 2011 expenditures based on the funding method.

The table on the next page compares the Governor's recommendations for the three building funds and the expenditures approved by the Legislature for FY 2010 and FY 2011.

## Project Adjustments

Following is a brief description of changes that the Legislature made to the recommendations of the Governor on capital improvement projects or projects that the Legislature added on its own initiative.

## General Government

### Department of Administration

**Rehabilitation & Repair.** As part of a 2.5 percent across-the-board reduction in FY 2011, the Legislature reduced appropriations totaling \$69,336 for three repair and rehabilitation projects, including a reduction of \$4,199 for state facilities, \$2,101 for the Judicial Center, and \$63,036 for the Capitol Complex. The Department will prioritize maintenance based on available resources for these repair and rehabilitation projects.

**Statehouse Renovation Bonds—Phase V.** The Legislature approved bonding authority of \$39.0 million for the final phase of the statehouse renovation project. This final phase will complete the north wing, visitors center, and rotunda renovations. Repayment

of the bonds will be from the State General Fund, beginning in FY 2012.

## Judiciary

**Judge's Chambers.** The Governor's budget had included the Judiciary's planned expansion of the Kansas Court of Appeals by remodeling of office space for the addition of the 14th judge and the judge's staff on January 1, 2011. However, the Legislature chose to delay the appointment. As a result, the Legislature deleted \$199,499 from the State General Fund.

## Human Services

### Department of Social & Rehabilitation Services

**Electrical Sub-Station Repair.** The Governor amended his budget to include new amounts from the State Institutions Building Fund (SIBF) in both FY 2010 and FY 2011. For FY 2010, \$261,800 was added, and \$1,287,000 will be needed in FY 2011 for critical repairs to the O sawatomie State Hospital electrical sub-station. This station provides power to the entire hospital grounds and consists of two transformers, one of which is out of service as a result of damage sustained in an electrical storm. To get the project started, SRS reallocated \$200,000 from within its capital budget, but additional appropriations were necessary. Monies were available in the SIBF to finance these repairs.

### Kansas Commission on Veterans Affairs

**Repair Kansas Soldiers Home.** A hail storm in June 2009 caused major damage to the roofs, shingles, guttering, storm windows and siding of 61 cottages and Halsey, Nimitz, Lincoln, and Grant Halls at the Kansas Soldiers Home. At the time the Governor's budget recommendations were made, the Home did not yet have a reliable estimate of the costs of the repairs. When a firm estimate was developed by the agency, the Governor amended his budget and the Legislature approved the Governor's budget

amendment in the amount of \$833,856 from the State Institutions Building Fund for these repairs.

## Education

### Fort Hays State University

**Deferred Maintenance.** For FY 2011, the Legislature added \$635,100 in estimated interest earnings to be used for deferred maintenance projects. Interest earnings are used on an annual basis for these projects; however, in FY 2011 the funding was inadvertently left out in the agency's request.

### School for the Blind

**Replace Johnson Building Roof.** For FY 2011, the Legislature added \$239,700 from the State Institutions Building Fund to replace the Johnson Building roof, which leaks during periods of heavy rainfall. The Johnson Building provides space for elementary and high school classrooms, student therapy, and orientation and mobility services. The roof was last replaced in 1988. This project had not been recommended by the Governor.

### School for the Deaf

**Upgrade Electrical Distribution System.** The Legislature included \$339,415 in enhanced funding from the State Institutions Building Fund to upgrade the existing electrical distribution system, which has become inadequate in meeting the demands of current energy usage levels. The project will change the current 12,740-volt central distribution line to a 480-volt building-by-building system. The Governor did not include this project in his budget.

## Public Safety

### Adjutant General

**Kansas National Guard Museum.** The 2008 Legislature passed H.B. 2946 which transferred

\$270,000 from the State Gaming Revenues Fund to the National Guard Museum Assistance Fund of the Adjutant General. The funds will add space to the National Guard Museum at Forbes Field in Topeka. The new addition to the museum will provide additional display area, an educational classroom, and a library. The Governor recommended \$270,000 from the National Guard Museum Assistance Fund in FY 2010 for the new addition. The Legislature approved an additional \$459,357 from the same fund in FY 2010 to complete the project.

## Transportation

### Department of Transportation

**Maintenance Projects.** The Legislature approved the Governor's budget amendment to transfer \$28.0 million from the State Highway Fund to the State General Fund by reducing maintenance projects by \$86.5 million. A transfer of \$44.3 million from the State Highway Fund to the State General Fund was approved by the Legislature for FY 2011. The transfer would capture the FY 2011 savings for the \$86.5 million in maintenance projects that were reduced in FY 2010.

**Salaries & Wages.** For budget reporting purposes, a portion of the Kansas Department of Transportation's (KDOT) budget for salaries and wages is routinely categorized as capital improvements. When adjustments are made by the Governor or the Legislature to salaries and wages expenditures, capital improvements are adjusted accordingly. The 2010 Legislature approved the Governor's budget amendment to lower salary and wage expenditures by \$92,140 from the State Highway Fund in FY 2010 for a temporary moratorium on employer contributions to the KPERSD and Disability Group Insurance Fund in the fourth quarter. The funds will be transferred to the State General Fund. In FY 2011, the Legislature increased salaries and wages by \$1.9 million to the State Highway Fund. The increase covers the undermarket value adjustments to certain classifications of state employees. The Legislature also extended the moratorium on employer contributions to the KPERSD and Disability Group Insurance Fund for the fourth quarter in FY 2011.

# Schedules

---

**Schedules 1-7** compare the Governor's budget recommendations with the budget approved by the 2010 Legislature, except for items the Governor line-item vetoed. The left-hand side of the page shows expenditures for FY 2010 and the right-hand side expenditures for FY 2011. Schedule 1.1 and 1.2 present a snapshot of the entire budget by various categories of expenditure, objects of expenditure, and major funding sources. Schedules 2.1 and 2.2 show total expenditures by agency from all funding sources and from the State General Fund only. Schedules 2.3 through 2.5 detail expenditures from the Children's Initiatives Fund, the EDIF, and the State Water Plan Fund. The remaining expenditure schedules, 3.1-6.2, present details by the major expenditure categories of State Operations; Aid to Local Governments; Other Assistance, Grants, and Benefits; and Capital Improvements. Schedule 7 compares authorized positions.

Non-expense items are not counted as reportable expenditures in the state budget. These are expenditures without an effect on an agency's budget, such as expenses for supplies that are subsequently reimbursed. Adding them to an agency's expenditure totals would overstate the true cost of government operations.

## Schedule 1.1--Expenditures Statewide from All Funding Sources

	FY 2010 Governor's Recommendation	Governor's Amendments	Legislative Changes	Governor's Veto	FY 2010 Approved Budget
<b>Summary of State Expenditures</b>					
State Operations	3,988,079,077	(3,873,388)	2,462,738	--	3,986,668,427
Aid to Local Governments	4,345,653,089	(8,100,000)	27,521	--	4,337,580,610
Other Assistance	5,091,811,169	(3,126,173)	5,514,331	--	5,094,199,327
